I.4) Type of the contracting authority

Regional or local authority

I.5) Main activity

General public services

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Design, Supply, Refurbishment and Installation of Town Dock Torquay

Reference number

DN541592

II.1.2) Main CPV code

- 34955000 - Floating dock

II.1.3) Type of contract

Supplies

II.1.4) Short description

Six of the existing pontoons that form the wave screen for the marina need to be rubberised as the joints have become worn. This will require them to be removed from site for shot blasting and metal works. While they are off site a temporary wave screen will need to be put in place to protect the marina.

The access bridge to the marina also needs to be refurbished, this will also need to be taken off site for blasting and minor metal works. Temporary access will need to be put in place while the bridge is being refurbished.

The back walkway pontoon and three legs of the marina, along with all the mooring fingers need to be removed and replaced with new products. The existing utility supplies (water & power) will be swapped onto the new infrastructure. In order to keep the marina operational we anticipate the works to be phased over a maximum of three years.

II.1.5) Estimated total value

Value excluding VAT: £1,000,000

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.2) Additional CPV code(s)

- 45241000 - Harbour construction works
- 45248300 - Construction work for floating docks
- 45242200 - Marina construction work
- 45242210 - Yacht harbour construction work

II.2.3) Place of performance

NUTS codes

- UKK42 - Torbay

II.2.4) Description of the procurement

The Town Dock provides marina facilities within Torquay Harbour for a range of small vessels, varying in size from 6m to 12m in length, and can cater for up to 163 vessels as well as providing visitor facilities.

It is flanked on one side by the historic World War 2 D-day Slipways, where vast numbers of American servicemen and all of their logistical requirements were embarked ready for their historic landings. It is also flanked by Haldon Pier which provides the main protection from the adjacent Torbay.

Six of the existing pontoons that form the wave screen for the marina need to be rubberised as the joints have become worn. This will require them to be removed from site for shot blasting and metal works. While they are off site a temporary wave screen will need to be put in place to protect the marina.

The access bridge to the marina also needs to be refurbished, this will also need to be taken off site for blasting and minor metal works. Temporary access will need to be put in place while the bridge is being refurbished.

The back walkway pontoon and three legs of the marina, along with all the mooring fingers need to be removed and replaced with new products. The existing utility supplies (water & power) will be swapped onto the new infrastructure. In order to keep the marina operational we anticipate the works to be phased over a maximum of three years.

II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6) Estimated value

Value excluding VAT: £1,000,000

II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

Duration in months

36

This contract is subject to renewal

No

II.2.10) Information about variants

Variants will be accepted: Yes
