#### **II.2.4) Description of the procurement**

The aim of this market engagement is to assess the markets interest, capacity and capability of delivering the provision of the Lung Cancer Screening Programme across the Derby and Derbyshire Integrated Care Board (DDICB) footprint. The ICB's preference is for a single / lead provider model.

NHS England has been running a pilot programme since 2019 to establish a lung health check programme in every Cancer Alliance area. In April 2022, a new ambition was announced to invite 100% of the eligible population across England by 2026/7, beginning in 2023/4 via this nationally mandated programme. The aim of the lung cancer screening programme is to diagnose patients with lung cancer earlier by identifying the population at increased risk, inviting them for a lung health check (LHC) and where eligible, a low dose

CT (LDCT) scan.

As part of this market engagement, and to facilitate the above, the commissioner will be requesting providers to complete and submit a market engagement questionnaire (available via the e-tendering portal).

To register your expression of interest and to complete the questionnaire, please use the following link and Project reference: Link: <https://health-family.force.com/s/Welcome>. Project Reference: C419887.

The deadline for Expressions of Interest responses is by 17:00 on 18th February 2026.

Please note, any and all information/documents that are made available as part of this engagement exercise is draft and subject to change. This Prior Information Notice relates to a service/contract in scope of the Provider Selection Regime (PSR). Any future Procurement / Provider Selection Process conducted will be subject to the Health Care Services (Provider Selection Regime) Regulations 2023.

For the avoidance of doubt, the provisions of the Procurement Act Regulations 2023 will not apply.
