II.1.4) Short description

The University of Southampton is seeking suitably experienced service providers who are able to successfully manage the Facilities Management service for the University of Southampton's primary data centre at Astro house. This site is the University of Southampton's main data centre and houses business-critical IT equipment that is used to provide business and operational continuity throughout the entire organisation. The service proposal includes the comprehensive management of services at the location and will include, but is not limited to, the following: • Engineering Services - Planned and responsive service to include a dedicated on-site engineer • Security Services - Manned security is to be provided 24 hours per day 365 days per year • Cleaning Services - to be provided Monday to Friday • Grounds and Garden Maintenance Services - as detailed in annex 4 of the Service Specification (File 4) • Waste Services - as detailed in annex 5 of the Service Specification (File 4) • Building Fabric Maintenance - To maintain the building specification as per the requirements set out in Annex 6 of the Service Specification (File 4) • Full maintenance of the equipment register - The on-site engineer will maintain, on site, a stock of critical spares to support repairs of the mechanical and electrical equipment and infrastructure
