II.1.4) Short description

Welsh Government requires a contract to deliver the National Survey for Wales from 2023-24 onwards. Under the Contract, the successful Bidder will conduct fieldwork for the National Survey from March 2023 until March 2028 (with the option to delay fieldwork start to October 2023, and/or delay fieldwork end to March 2029 or March 2030), and to supply the resulting data files to the Client along with technical documentation. The survey will be a continuous annual survey of around 12,000 people a year across in Wales. Fieldwork will be carried out primarily by telephone, with an additional online self-completion section in some years. Where respondents cannot be contacted by phone, interviewers may visit addresses and if possible carry out the survey face-to-face, in home (with a computerised self-completion section in some years).

II.2.4) Description of the procurement

The survey will cover a representative, random sample of all people aged 16 or over (no upper age limit) resident within private households in Wales. The address sample will be a single-stage sample across Wales. Within each sampled household, where there are two or more eligible individuals the interviewer will select the respondent using a random selection technique. Approximately 12,000 interviews should be achieved in each financial year, unclustered across the year. The sample should be sufficiently representative within quarters to support national estimates based on each quarter.

The survey will provide results each year primarily at national, regional and local health board level, but will also support estimates at local authority level. The achieved sample size will be broadly proportionate to population size in each local authority, with oversampling to achieve an effective sample size of approximately 750 respondents a year in Powys and 250 a year in the smallest authorities.

A modular questionnaire will be administered to each participating respondent. The questionnaire will be updated each year. The questionnaire will take 40 minutes to complete (median average across respondents). The survey will be carried out primarily by telephone, with a face-to-face, in-home interview for respondents who do not provide a phone number. In some years there will also be a 10-15 minute self-completion section within the overall 40 minute survey length, either online (for respondents who complete the first section by telephone) or by Computer-Assisted Self-Interview (CASI; for respondents completing the first section face-to-face).

Filtering and random subsampling of modules will be used to collect data only to the necessary level of precision for each topic. This means that for example where estimates are only needed at national level, a random subsample will be selected from the whole sample such that 2,000 respondents answer the relevant questions. The questionnaires supplied by the Client will be converted by the successful Bidder into computer scripts for fieldwork. Conversion of the materials will include detailed testing of the script by the successful Bidder. The successful Bidder will supply data files, including weights, for each fieldwork year to the Client by early May after the end of that fieldwork year. Data files will then be reviewed by the Client. The successful Bidder will revise them as necessary by mid May for sign-off by the Client by early June. The technical report relating to that fieldwork year will be supplied to the Client by mid May, to be revised and signed off by early June.

II.2.6) Estimated value

Total estimated maximum value figure GBP 17600000 including VAT

The potential total value of the Contract for the core requirements is estimated to be a maximum of GBP 10m (excluding VAT) over the 6 year 4 month duration. The potential value for the core requirements for the possible extension (of up to two years) is estimated to be an additional GBP 1.9m (excluding VAT) a year.

The maximum budget for the core requirements is GBP 0.5m in 2022-23 and GBP 1.869m per financial year thereafter (excluding VAT, and including inflation over the life of the Contract). Note that the maximum budget is lower if option (i) to delay fieldwork start is taken up: GBP 0.1m in 2022-23, 1.657m in 2023-24, and then 1.869m a year thereafter.

In addition, subject to the Client's ongoing contract requirements, should all of the additional optional elements be required during the contract term the maximum additional budget for all optional elements on top of the core budget set out above is GBP 750k excluding VAT over the life of the contract.
