II.2.11) Information about options

Options: Yes

Description of options

An extension to 31 May 2023 with the option for EANI to extend at its absolute discretion for an additional period of four months until 30 September 2023 and for a further additional period of four months until 31 January 2024 and for a final further additional period of four months until 31 May 2024.

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Award of a contract without prior publication of a call for competition in the cases listed below

- The procurement falls outside the scope of application of the regulations

Explanation:

Regulation 72(1)(c) permits this extension due to unforeseen circumstances which a diligent contracting authority could not have foreseen, the overall nature of the contract is not altered and Modification value is GBP 4 000 000 which does not exceed 50 % of the original contract value. This contingency includes sums to permit work in other Lots (as per the contract and Regulation 72 (1) (a)). To secure continuity, Task Orders issued on/after 1 July 2021 as per VEAT (2021/S 105-278044) are adjusted for inflation, calculated with the BCIS Measured Term Contract Updating Percentages. Inflation from mid-point of original contract to 31 March 2021 is: PSA SOR BCE15 5.5 pct applies to Sections 1, 2, 4, 5 and 6 of Price List; PSA SOR DEC12 5.0 pct applies to Section 7 Item OT070. Inflation after 1 April 2021 is changed in BCIS MTC Updating Percentages from 31 March 2021 indices based on TO issue date/latest published index. For travel expenses for Response Task Orders issued outside of the Lot received on or after 1 June 2022, an additional amount for travel has been included. It is the EA's intention, upon receipt of the compelling evidence, to consider the review of certain prices in the price lists for specific elements of which the impact of inflation is higher than what could have reasonably and diligently anticipated. This includes: Aluminium window systems and associated items comprising glazing, flashings and insulated panels, Aluminium curtain walling and associated items comprising glazing, flashings and insulated panels, Aluminium doors and associated items comprising sidelights and fanlights, Coated macadam roads and pavings and associated items comprising regulating courses, Asphalt roads and pavings and associated items comprising chippings, Proprietary coloured safety sports surfacings (wet-pour) and associated items comprising logos, patterns, graphics. Metal fencing comprising chain link, anti-intruder chain link, steel palisade security, roll-top, rigid mesh panel, steel ball-stop and rotating barrier, and associated items comprising straining posts and single and double gates (excluding work to old fencing) copper cabling comprising HV/LV cables, standard power cables 600/1000V, armoured and armoured: fire resistant, sizes exceeding 500mm² one core, 185mm² two core, 120mm² three core and 95mm² four core (Rate A only) Copper cabling comprising HV/LV cables: standard power cables 1900/3300V, armoured, sizes exceeding 150mm² one core and 120mm² two core (Rate A only)

Regulation 72(1)(b) further permits this extension as a change of provider:

(i) cannot be made for economic and technical reasons as requirements of interchangeability or interoperability of services procured under the original procurement and given the need to ensure continued access to EANI schools and facilities and could result in partial/total closure of schools; and

(ii) will cause significant inconvenience and duplication of costs.

EANI envisages new contract award by 30/09/23.

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes

Section V. Award of contract/concession

A contract/lot is awarded: Yes
