II.2.5) Award criteria

Quality criterion - Name: An overview of the providers proposed approach including their envisaged acceptance and transfer locations, the route between these, the vehicles and equipment to be used, and, where applicable, the role of any sub-contractors, consortium members or other provider managed parties. / Weighting: 15

Quality criterion - Name: D.2.1.2 (10%) A table identifying any permissions, decisions, agreements or other dependencies with your supply chain, the waste team, the Council more generally or third party stakeholders that will need to be/have been addressed to allow your methodology to be delivered. The response should; • Describe the issue, • Identify the nature of any decisions required (e.g. are they internal or external decisions, access related, statutory/legal, commercial, operational, none etc), • Identify the parties involved • State the current progress of any decision process (e.g. none, no progress, early discussions,

advanced discussions, agreed) • the importance of resolving the issue i.e. what would the consequence be if it were not resolved. • Any alternative options or mitigations you are considering for resolving the issue. / Weighting: 10

Quality criterion - Name: Tenderers should outline the potential health, safety and environmental implications or concerns that they can foresee in delivering the Lot they are bidding for. The Health, Safety and Environment considerations should be linked to the proposed approach to delivering the Lot in D.2.1 above. Reference should be made to any requirements that legislation or regulation may place upon the contractor with regard to health, safety and the environment such as mandatory processes or procedures. Tenderers should also describe their approach for managing and controlling the identified health, safety and environmental risks in line with the Council's ambitions to carbon neutral by 2030. / Weighting: 10

Quality criterion - Name: Tenderers should prepare a project specific risk register considering potential risks to the successful delivery of the contract including the likelihood of the risks arising, the impacts, risk reduction measures and the parties responsible for the risks. / Weighting: 5

Price - Weighting: 60
