Published 4 February 2026, 4:30pm

## Scope

## Description

The scope of this Contract is to define the technical requirements for creating, managing, and publishing a Digital Local Plan (DLP) that aligns with the UK Government's digital planning reforms under the Levelling Up and Regeneration Act 2023. This includes outlining requirements for ways of working, project management, and the delivery of the Discovery and Alpha phases.

The project will be delivered through the Discovery and Alpha phases, in line with the GDS Service Design Manual. The Discovery phase is intended to develop a detailed understanding of the problem space and to inform the technical requirements for the Alpha phase.

## **Engagement**

### **Engagement deadline**

31 December 2024

The engagement was carried out before this notice was published.

### **Engagement process description**

Informal discussions were undertaken by City of London officers with approximately six companies known to the City for their experience in delivering the Discovery and Alpha stages of product development, as well as their awareness of the UK digital planning landscape. These discussions took place throughout 2024 to explore the technical “art of the possible”, alongside indicative costs, timescales, and the different approaches that could be taken to delivering the work.

No further market consultation was considered necessary. The City plans to publish an Open Tender for the Digital Local Plan (Discovery and Alpha phases) contract in early February 2026, currently anticipated to be released on or around 5 February 2026.
