Tender

## **LIFE R4ever Kent Project (LIFE20 NAT/UK/001001013) - eDNA monitoring for freshwater invertebrate species**

Natural England

UK4: Tender notice - Procurement Act 2023 - [view information about notice types](#)

Notice identifier: 2025/S 000-010198

Procurement identifier (OCID): ocds-h6vhtk-04ef2f ([view related notices](#))

Published 19 March 2025, 3:20pm

### **Scope**

### **Reference**

eDNALRKeK

### **Description**

The LIFE R4ever Kent project (2021 -2026) aims restore and revitalise the River Kent Special Area of Conservation (SAC) in South Cumbria and its wider catchment, so it is more resilient to environmental pressures. This unique river, located on the fringes of the English Lake District is home to internationally important populations of bullhead, white-clawed crayfish, freshwater pearl mussel and water crowfoot (*Ranunculus*) habitat. A key deliverable of the project is to trial new monitoring techniques by implementing the use of environmental DNA (eDNA) sampling for testing for the presence of Freshwater Pearl Mussels, White-clawed Crayfish along with invasive Signal Crayfish and associated disease Crayfish Plague.

There are three parts to this contract:

- The provision of eDNA water sampling equipment/kits and protocols

- DNA extraction, analysis of samples taken and reporting the result
- Sequencing of qPCR products

Natural England will be responsible for the collection of water samples from sites across the River Kent Catchment.

### **Total value (estimated)**

- £45,833 excluding VAT
- £55,000 including VAT

Below the relevant threshold

### **Contract dates (estimated)**

- 14 April 2025 to 31 March 2026
- Possible extension to 30 September 2026
- 1 year, 5 months, 17 days

Description of possible extension:

6 months as per standard contract

### **Main procurement category**

Services

### **CPV classifications**

- 90711300 - Environmental indicators analysis other than for construction

## **Contract locations**

- UKD - North West (England)
