II.1.4) Short description

Crown Commercial Service (CCS) as the Contracting Authority has put in place ProCure23 (P23) (Lots 1, 2 and 3) which is the fourth generation of the ProCure framework and will continue the provision of design and construction services to NHS capital projects other than in respect of the New Hospital Programme*. Please note this is available only to NHS bodies in England.

In its 19 year history this mature and award winning framework has successfully delivered more than 1200 projects across England, with a cumulative spend of £9.7bn, and ProCure23 will build this heritage into a third decade.

* Whilst the framework is not intended to provide the main sourcing routes for new hospitals within the New Hospital Programme (NHP), for the avoidance of doubt, NHP does reserve the right to use it. This reserved right was stated in the PIN.

Crown Commercial Service (CCS) as the Contracting Authority has put in in place a Pan Government Collaborative Agreement (for Lot 4 and Lot 5 only) for the provision of Construction Works to be utilised by eligible Central Government Departments and all other UK Public Sector Bodies, including Local Authorities, Health, Police, Fire and Rescue, Education and Devolved Administrations. This commercial agreement will be the recommended vehicle for all Construction Works projects required by UK Central Government Departments.

The start date of this Framework Alliance Contract is 21/3/2022. The expiry date of the Framework Agreement is 30/10/2026. The Framework Alliance Contract will be coterminous with the RM6088 Construction Works and Associated Services Framework Alliance.

On 2/4/2014 the Government introduced its Government Security Classifications (GSC) scheme which replaced the Government Protective Marking Scheme (GPMS). A key aspect is the reduction in the number of security classifications used. All bidders were required to make themselves aware of the changes as it may impact this requirement. This link provides information on the GSC at:
<https://www.gov.uk/government/publications/government-security-classifications>

Cyber Essentials is a mandatory requirement for Central Government contracts which involve handling personal information or provide certain ICT products/services. Government is taking steps to reduce the levels of cyber security risk in its supply chain through the Cyber Essentials scheme. The scheme defines a set of controls which, when implemented, will provide organisations with basic protection from the most prevalent forms of threat coming from the internet. To participate in this procurement, bidders were

required to demonstrate they comply with the technical requirements prescribed by Cyber Essentials, for services under and in connection with this procurement.

Refer to <https://www.ncsc.gov.uk/information/cyber-essentials-faqs> for more information.

Some purchases under this Framework Alliance Contract (FAC) may have requirements that can be met under this FAC but the purchase of which may be exempt from the Procurement Regulations (as defined in Attachment 1 – About the CCS CWAS 2 - P23 Framework Alliance Contract within the invitation to tender documentation). In such cases, Call-offs from this Framework will be unregulated purchases for the purposes of the Procurement Regulations, and the buyers may, at their discretion, modify the terms of the Framework and any Call-off Contracts to reflect that buyer's specific needs.
