II.2.4) Description of the procurement

The basis of the contract is for the contractor to provide an all-inclusive, fully comprehensive cover for undertaking servicing, maintenance, repairs and the like to appliances, heating systems and other defined items at properties owned or managed by Grand Union Housing Group. The contractor shall undertake all works and supply all components, parts, equipment, materials, etc. and provide all services necessary to ensure that the appliances, heating systems and other specified items are checked, inspected, serviced, maintained, repaired, replaced, tested, etc. as necessary in order that they remain fully operational, functional, efficient in use, in safe condition, and well maintained at all times throughout the duration of the contract.

The works generally comprise:

- The carrying out of periodic servicing to every appliance and heating system located

within the properties.

- The carrying out of gas soundness and safety check to every gas appliance and / or heating system within properties as and when they become void or are subject to mutual exchange.
- The carrying out of periodic gas soundness and safety checks to gas catering equipment located within sheltered housing schemes.
- The carrying out of periodic gas soundness and safety checks to gas pipework in other properties (i.e. properties without gas appliances and heating systems but containing gas pipework).
- The undertaking of any necessary repairs whilst carrying out periodic servicing or gas soundness and safety checks.
- The carrying out of responsive repairs to all appliances and / or heating systems suffering breakdown, failure, defect, fault, etc. within any of the properties.
- The undertaking of any necessary maintenance work whilst carrying out periodic servicing, gas soundness and safety checks, and responsive repairs.
- Chimney sweeping.
- Checking smoke detectors and carbon monoxide detectors.
- Possible isolated upgrades to, renewals of, and / or new installations of appliances and / or heating systems.
- All associated testing, commissioning, certification and the like.

The above list may not be exhaustive.

The works require the contractor to provide:

- An effective and well-resourced workforce capable of carrying out all of the demands of the contract in relation to both administrating and executing the works.
- A comprehensive management, administration, monitoring, supervision and communications service to administer the contract and ensure its proper execution.
- An out of hours emergency repair service (to deal with breakdowns, failures, defects, faults, etc.).

- Proficient and effective IT systems to enable the employer to schedule works and issue and administer Orders. In this connection, the contractor shall provide and administer a proficient and effective IT management system interfaced with the employer's IT management system to enable the effective administration of the contract, and a proficient and effective IT scheduling system interfaced with the employer's IT systems capable of enabling the employer and tenants to schedule appointments for breakdowns, repairs and the like. The contractor's IT scheduling system shall be flexible and dynamic and allow appointment booking to be made in a number of ways and ensure a first-class service is provided.

The above list is not meant to be exhaustive.

The contractor shall ensure:

- All servicing is undertaken on a periodic basis within the time constraints required.
- All repairs are undertaken to accord with the scheduling requirements of the employer and within allocated priority coding response periods and / or timescales.

II.2.5) Award criteria

Quality criterion - Name: Quality / Weighting: 50

Cost criterion - Name: Price / Weighting: 50
