On 02/04/2014, Government introduced its Government Security Classifications (GSC) scheme which replaced Government Protective Marking Scheme (GPMS). A key aspect is the reduction in the number of security classifications used. All bidders were required to make themselves aware of the changes as it may impact this requirement. This link provides information on the GSC at: <https://www.gov.uk/government/publications/government-security-classifications>

Cyber Essentials is a mandatory requirement for Central Government contracts which involve handling personal information or provide certain ICT products/services. Government is taking steps to reduce the levels of cyber security risk in its supply chain through the Cyber Essentials scheme. The scheme defines a set of controls which, when implemented, will provide organisations with basic protection from the most prevalent forms of threat coming from the internet. To participate in this procurement, bidders were required to demonstrate they comply with the technical requirements prescribed by Cyber Essentials, for services under and in connection with this procurement.

CCS reserved the right to award a framework to any bidder whose final score was within 1% of the last position.

## **VII.2) Information about modifications**

### **VII.2.1) Description of the modifications**

Nature and extent of the modifications (with indication of possible earlier changes to the contract):

In accordance with Regulation 72 paragraph 1 (e ) of the Public Contract Regulations 2015,

CCS intends to modify the Construction Professional Services Framework Agreement

(RM6165) by extending the term by 6 months.

### **VII.2.2) Reasons for modification**

Need for additional works, services or supplies by the original contractor/concessionaire.

Description of the economic or technical reasons and the inconvenience or duplication of cost preventing a change of contractor:

Due to the recent decision made by Government to delay the implementation of the

Procurement Act 23, Crown Commercial Service (CCS) believes that the first condition set out in Regulation 72(1)(c) Public Contracts Regulations 2015 has been fulfilled in respect of the

Framework Agreement. In order to enable CCS to ensure its portfolio is ready for the new implementation date of 24/02/2025, and to safeguard the significant work already completed in the development of the replacement agreement under the new regulations, CCS proposes to extend the Framework Agreement for a period of six (6) months from its scheduled expiry date. The extended Framework Agreement will expire on 29/03/2026.

### **VII.2.3) Increase in price**

Updated total contract value before the modifications (taking into account possible earlier contract modifications, price adaptations and average inflation)

Value excluding VAT: £1,722,500,000

Total contract value after the modifications

Value excluding VAT: £1,722,500,000
