The contract is awarded by a central purchasing body

I.4) Type of the contracting authority

Ministry or any other national or federal authority

I.5) Main activity

General public services

Section II: Object**II.1) Scope of the procurement****II.1.1) Title**

Energy Trading and Risk Management (ETRM) System

Reference number

RM6385

II.1.2) Main CPV code

- 48000000 - Software package and information systems

II.1.3) Type of contract

Supplies

II.1.4) Short description

The Energy Trading and Risk Management system (ETRM) was used by Trading and Risk to manage the CCS energy portfolio for more than 1,200 customers across the Public Sector with a total spend of more than £1.5 billion per annum. The Energy Trading and Risk Management system (ETRM) was used to record trade and demand forecasts, calculate open positions and valuations based on market prices, and serves as Trading and Risk's 'single source of truth' for portfolio reporting and information. CCS was seeking to replace its current ETRM by sourcing a replacement, cloud based system. This was an off-the-shelf ready to deploy software procurement, rather than a software development project. The ETRM would support CCS's ability to provide its customers with risk managed products for power and gas.

II.1.6) Information about lots

This contract is divided into lots: No

II.1.7) Total value of the procurement (excluding VAT)

Value excluding VAT: £1,300,000

II.2) Description

II.2.2) Additional CPV code(s)

- 48000000 - Software package and information systems

II.2.3) Place of performance

On 02/04/2014, Government introduced its Government Security Classifications (GSC) scheme which replaced Government Protective Marking Scheme (GPMS). A key aspect is the reduction in the number of security classifications used. All bidders were required to make themselves aware of the changes as it may impact this requirement. This link provides information on the GSC at:

[https://www.gov.uk/government/publications/government-security-](https://www.gov.uk/government/publications/government-security-classifications) classifications

Cyber Essentials is a mandatory requirement for Central Government contracts which involve handling personal information or provide certain ICT products/services. Government is taking steps to reduce the levels of cyber security risk in its supply chain through the Cyber Essentials scheme. The scheme defines a set of controls which, when implemented, will provide organisations with basic protection from the most prevalent forms of threat coming from the internet. To participate in this procurement, bidders were required to demonstrate they comply with the technical requirements prescribed by Cyber Essentials, for services under and in connection with this procurement.
