Description

Northampton's Market Square has been the subject of significant investment, opening in October 2024. West Northamptonshire Council are seeking a service provider to transport, erect, take down and store the markets' pop-up stalls and additional infrastructure on a weekly basis.

Each stall weighs approximately 45kg, the manufacturers guidelines state that their operation requires two personnel and takes 54 seconds per stall to erect and 37 seconds to take down.

The objective is to provide the correct number of stalls, weather protection and cabling required for trading, working to an agreed layout, and to leave the market clear following the dismantle.

The number of stalls required each day will vary with a minimum of 8 up to a maximum of 36. The maximum being on event days only, primarily on Saturdays and Sundays

The end users will be market traders and events' organisers.

Provider must ensure the trading area is ready to receive its occupants no later than 7am of each trading day. The provider must ensure the trading area is cleared of all equipment, commencing de-rig no earlier than 5.30pm. These times may vary according to the councils' requirements.

Provider will ensure the equipment is presented as 'like new' by ensuring it is regularly cleaned and maintained. All defects to be reported to the market team.

Total value (estimated)

- £99,999 including VAT

Below the relevant threshold
