PRELIMINARY MARKET ENGAGEMENT CONDUCTED

In developing this opportunity NHS Supply Chain (the Authority) conducted Preliminary Market Engagement (PME) by issuing Find a Tender notice identifier 2025/S 000-033550 under PA23 reference Project_1612

as summarised below:

- 19/06/2025 UK2: Preliminary market engagement notice published EOI deadline 04/07/2025 @ 10:00 via Jaggaer
- 27/06/2025 Supplier Day held in Nottingham

- 04/07/2025 EOI via Jaggaer closed at 10:00
- 04/07/2025 Request for Information (RFI) issued via Surgical mailbox at 10:24 to 88 recipients with a closing date of 24/07/2024 and clarifications opened
- 16/07/2025 Clarifications closed
- 24/07/2025 33 completed RFI questionnaires were returned to the Surgical mailbox

The RFI responses we analysed, and it is to be noted that in response to PPN 022 Procuring Steel in Government Contracts, that the supply chain was unable at this time to support the Authority in creating a level playing field for UK steel producers through any subsequent procurement of these surgical instrument's requirements.

Supplier 121's held through a combination of requests by Supplier and requests by the Category Team. Sessions were used to gauge feasibility for rationalising the stocked route to market and Supplier approach to sustainability.

There was a focus on meeting with Service providers for Managed Service, Decontamination and Sterilisation to ensure the framework is viable and understand the focus within the market.

RFI responses were used to develop sustainability opportunities and were also used to develop the risk and issues log.

- 03/09/2025 the revised draft Specification (with the exclusion of Lot 8) was accompanied by a Product

List was issued via the surgical mailbox to 84 recipients. Additional questions were asked on Supplier

approaches to 3rd Party Audits to follow on from information provide in the RFI response.

- 26/09/2025 a further and final Supplier Day was hosted at Nottingham before publication of the tender.

Participation in the PME conducted was not used nor acknowledged in any way for the purpose of evaluating nor qualifying any potential supplier, in any subsequent formal competitive process.
