Section III. Legal, economic, financial and technical information

III.1) Conditions for participation

III.1.2) Economic and financial standing

List and brief description of selection criteria

With regards SPD question 4B.4 SPT will use Dun and Bradstreet's DBAi financial reporting system to assess the financial stability of bidders.

In the event that the bidder does not have a Dun and Bradstreet rating or they consider that the rating has been adversely affected by factors which they can offer mitigating evidence for, we will use financial ratios to evaluate a bidder's financial status. In this scenario Bidders must confirm within their response to question 4B.4 within the Qualification Envelope, the ratio name and value of the 3 financial ratios listed as taken from their own Accounts.

Minimum level(s) of standards possibly required

Bidders with a Failure Score of 51 or above on the DBAi system will be deemed to have evidenced satisfactory financial stability. Bidders must confirm within their response to question 4B.4 within the Qualification Envelope, the value of their D&B Failure Score.

The Financial ratios used in the absence of a DBA' score are:

Profitability – this is taken as profit after tax but before dividends and minority interests. If a company makes a profit then it is a pass for this ratio;

Liquidity – this value is calculated as current assets less stock and work in progress, divided by current liabilities. If the answer is greater than or equal to one then it is a pass for this ratio;

Gearing – this value is calculated as the total external secured borrowing (short term and long term) divided by shareholder funds expressed as a percentage. If the answer is less than or equal to 100% it is considered a pass for this ratio.

Where 2 out of the 3 ratios cannot be met, we may then take account of other factors when assessing financial viability and the risk to the organisation, providing that the Bidder can submit acceptable evidence to substantiate any of the mitigating criteria.

III.1.3) Technical and professional ability

List and brief description of selection criteria

Strathclyde Partnership for Transport (SPT) invites bids from providers who can demonstrate experience in delivering training in any of the following categories of service:

Cat 1 - Business Improvement/Consultancy & Facilitation Services

Cat 2 - First Aid

Cat 3 - Health & Safety

Cat 4 - Health & Safety (Railway Engineering and Associated Training)

Cat 5 - IT/Computer skills/eLearning

Cat 6 - Personal Development & Soft Skills

Cat 7 - Public Sector Tenders Bidder Training

Bidders will require to fully evidence their organisation's previous experience in delivering training within each Category they are bidding to be considered for appointment to.

Minimum level(s) of standards possibly required

In answering 4C1.2 within the SPD, Bidders should provide at least two separate previous recent examples of where they have undertaken similar work to that described within any Category of Service within the Scope of Services.

Strathclyde Partnership for Transport may contact the organisations you have noted upon your evidence to discuss how you have worked with them.

These examples will be evaluated on a Pass/Fail basis i.e. either the experience is evidenced or it is not.

The buyer is using PCS-Tender to conduct this PQQ exercise. The Project code is 20986. For more information see:

<http://www.publiccontractsscotland.gov.uk/info/InfoCentre.aspx?ID=2343>

Community benefits are included in this requirement. For more information see: <https://www.gov.scot/policies/public-sector-procurement/community-benefits-in-procurement/>

A summary of the expected community benefits has been provided as follows:

Similar to the award of a standard Framework or DPS, it is accepted that it is difficult to achieve any meaningful Community Benefits (CB's) via the award of a PSA due to the absence of any guarantee of spend, volume or duration.

Where services of a significant value in any category are procured via mini tender, Community Benefit requirements may be included as part of the Technical evaluation. Where they are not however included and in instances where Direct Award is used as the method of procurement, the undernoted process will apply:

On the anniversary of each year of the PSA when actual expenditure is known, the Provider will be required to deliver CB's in the following year to the value of the points conversant to their income in the previous year using the matrix provided within the tender, which is based upon the allocation of CB points to overall value.
