# **IT Security Services**

Development Bank of Wales

UK4: Tender notice - Procurement Act 2023 - view information about notice types

Notice identifier: 2025/S 000-010484

Procurement identifier (OCID): ocds-h6vhtk-04efe9 (view related notices)

Published 20 March 2025, 3:51pm

## Scope

#### Reference

DBW00105

## **Description**

The Development Bank of Wales currently operate a security operation model that is split across multiple providers and technologies. To help reduce the complexity of this approach and improve our ability to effectively monitor, respond to, and mitigate security threats, the Banc are investigating the feasibility of implementing a unified Microsoft security operations platform, the day-to-day management of which would be supported by a single provider. his transition will not only streamline our processes and technology, but also increase the efficiency of our incident response efforts and reduce the potential for gaps in our security posture caused by the fragmentation of tools and services.

Currently, our Azure services are handled by Service Provider A, which focuses on optimising our cloud infrastructure. Service Provider B is responsible for managing our Microsoft 365 environment and on-premises infrastructure, ensuring that both are configured and maintained to meet our operational needs. Additionally, our managed detection and response (MDR) services are provided by Service Provider C, which utilises

their own proprietary platform to deliver continuous monitoring, threat detection, and incident response across our IT estate.

The Banc is investigating replacing Service Provider C with a new Service Provider that will take over the managed detection and response function, utilising the Microsoft unified security platform. They will be responsible for the implementation, configuration and ongoing management of the platform, and providing proactive advice and recommendations to improve the security of our Microsoft estate, drawing on Microsoft's insights, but will not be responsible for any configuration outside of the security platform. The new provider will collaborate closely with Service Providers A and B to align security practices ensuring that our entire IT environment remains protected against emerging threats.

Please refer to the scope of requirements

Please note the contract value is an estimate

### **Total value (estimated)**

- £1,500,000 excluding VAT
- £1,800,000 including VAT

Above the relevant threshold

### **Contract dates (estimated)**

- 1 July 2025 to 30 June 2030
- Possible extension to 30 June 2033
- 8 years

Description of possible extension:

3 years in 12 month increments

### **Options**

The right to additional purchases while the contract is valid.
