Description

To guarantee the efficient utilisation of technology, transform our digital and customer services, and fulfil public service commitments, His Majesty's Revenue and Customs (HMRC) requires research subscription services.

This service will assist in setting strategies, managing projects, deploying new technologies, and ensuring regulatory compliance, amongst other things.

Additionally, an on-demand ad-hoc advisory service is necessary to translate industry-leading insights into actionable plans, across different business areas and topics.

This tender is to be split in to lots which have varied values and contract start dates.

Please note, the Authority have determined this requirement to be VAT recoverable meaning the contract value will be exclusive of VAT. A value for 'Including VAT' has been included within each relevant section as required by the FTS system although the 'Excluding VAT' value should be considered when expressing interest. Values provided are inclusive of the optional 12 month extension. Values are indicative maximums and provide no commitment of spend or usage.
