The University requires a single service provider to deliver maintenance Services for Generators, Fuel Management and the supply of temporary Generator sets and fuel tanks including required equipment. This Contract will include Planned Preventative Maintenance (PPM) and an emergency call out retainer. The successful supplier will also be required to deliver Reactive Maintenance, emergency call out visits and remedial works as a chargeable service. The provision for capital or emergency replacement shall also be included as a chargeable service where necessary.

II.2.5) Award criteria

Quality criterion - Name: Quality and Responsible Procurement / Weighting: 60

Cost criterion - Name: Cost / Weighting: 40

II.2.11) Information about options

Options: Yes

Description of options

In the event that any backup LV generator set or associated equipment (such as Automatic Transfer Switches, control panels, or fuel systems) is deemed beyond economic repair or reaches the end of its operational life, the supply and installation of replacement generator sets and related equipment will be considered an additional chargeable item. The contractor will provide a detailed proposal outlining the cost of replacement units, including all labour, materials, delivery, and commissioning. This will be subject to the university's approval before any work is undertaken. Additionally, any upgrades to enhance system capacity or efficiency will also fall under this category.

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No
