II.1.1) Title

Specialist Technical and Commercial Advisory for Rail and Other Transport Systems Framework (STARThree)

II.1.2) Main CPV code

- 71311230 - Railway engineering services

II.1.3) Type of contract

Services

II.1.4) Short description

To support the Department's commitment to increase the level of investment in transport, it requires access to specialist technical and commercial advisory support. Currently the demand for this support is successfully met through the Specialist Technical Advisory for Rail (STARTwo Framework which is managed by the Department's Group Commercial Directorate (GCD). The STARTwo framework enables access to high quality, professionally qualified and experienced specialist third party advisory support for a range of service requirements.

Subject to approvals, on behalf of the Department, Group Commercial Directorate (GCD) intend to procure a replacement four year (2+1+1 year arrangement) framework to enable similar access to high quality, professionally qualified and experienced specialist third party advisory support for a range of service requirements once the STARTwo Framework term expires in May 2023. The framework will also be accessible by other public sector entities (Clients) who have been named in the Contract Notice and with the consent of DfT.

It is proposed that the STARThree Framework will have two lots, as further detailed in this notice. This is a change from the previous STARTwo Framework structure.

II.1.5) Estimated total value
