Body governed by public law

I.5) Main activity

Health

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Trainee Platform for HEIW (Health Education & Improvement Wales)

Reference number

HEIW-DIGI-008

II.1.2) Main CPV code

- 48000000 - Software package and information systems

II.1.3) Type of contract

Supplies

II.1.4) Short description

Health Education and Improvement Wales (HEIW) was established in 2018 as a Special Health Authority, bringing together three key organisations for health: the Wales Deanery; NHS Wales's Workforce Education and Development Services (WEDS); and the Wales Centre for Pharmacy Professional Education (WCPPE).

HEIW has a broad range of responsibilities within NHS Wales. This includes the requirement to recruit and provide postgraduate education and training in the areas of: Medical; Dental; Pharmacy; and Optometry. To support this, HEIW has a 'trainee information database', which is supplied as a Software-as-a-Service (SaaS) by a third-party external partner.

The purpose of this Prior Information Notice (PIN) is to alert potential suppliers to an opportunity to deliver an online 'Trainee Platform' for HEIW. With a priority of replacing our existing 'trainee information database' system, this is the first phase of a wider requirement to incorporate 12 internally developed web applications alongside to create a single trainee platform. It is anticipated that HEIW will work in partnership, across a phased, multi-year programme of work to deliver the desired outcome.

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.3) Place of performance

NUTS codes

- UKL - Wales

II.2.4) Description of the procurement

HEIW is seeking to engage the market to understand the technical solutions, delivery options and ideas that will inform a business case to determine the most appropriate method to replace the current Intrepid Trainee Database. Due to the nature of this engagement, there is no guarantee that a procurement exercise will be undertaken following this PIN. Future requirements will be dependent on the outcome of an internal business case and its approval. However, this is an excellent opportunity for suppliers to help inform that case and engage with HEIW to determine the most appropriate method to realising its ambition.

The current trainee information database system holds all training information for HEIW's trainees, this data includes trainee contact and Active Directory Identity information; training programme and placement information; information on trainee rotations; course attendance and CPD, annual assessments, study leave, and study leave budget.

Trainees can access the solution from any location. It is therefore expected that the solution will be Cloud hosted – in line with Welsh Governments 'Cloud First' strategy. The solution should also be ready to integrate with the NHS Wales Active Directory for user login and account authentication and provide interoperability with multiple existing systems via API solutions.

Overall, the solution must support the input and reporting of trainee and trainer information. Following work with existing stakeholders, the scope to be considered within this PIN is:

- The suppliers approach to delivering both phases of the project in partnership with HEIW.
- Allow for a 'single sign-on' solution integrating with the NHS Wales Active Directory.
- A system that allows the capture and reporting on HEIW Trainees and Trainers, including:
 - Profile information.
 - Post, Placement, Programme, CPD and Assessment outcome information.
 - Study and annual leave for trainees.

- Report on trainee locations and rotations to new locations.
- Administration functions for users that will manage data for these users.
- Integration ability with other systems using modern API methods - RESTful, Fast Healthcare Interoperability Resources (FHIR), Health Level Seven International (HL7) etc.
- National Cyber Security Centre (NCSC) cloud security guidance.
- To work with HEIW in an agile way to keep stakeholders informed of processes and change.

Indicative pricing will also be requested as part of this pre-market engagement. A summary of draft requirements will be sent to interested suppliers and it is intended to hold a Supplier Engagement event between 7th – 16th June 2023.

II.2.14) Additional information

This contract will cover the following organisations:

Health Education and Improvement Wales (HEIW)

II.3) Estimated date of publication of contract notice

29 August 2023

Section IV. Procedure

IV.1) Description

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes

Section VI. Complementary information

VI.3) Additional information

A Supplier Engagement event is to take place between the 7th – 16th June 2023 via Microsoft Teams. Sessions are to last up to 1.5 hours. Details on the format and scope of the presentation required will be sent to interested parties on 17th May 2023.
