II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

Main site or place of performance

Manchester Airport

Stansted Airport

East Midlands Airport

II.2.4) Description of the procurement

MAG Technology is initiating early market engagement to consider options for replacement of their legacy Chroma Airport Operational Database (AODB) system with a modern, purpose-built solution across all MAG airports. To achieve this, MAG is seeking input from

technology suppliers who offer cutting-edge AODB solutions. MAG is eager to learn about suppliers' thoughts, insights, and innovative approaches to partnering on this strategic initiative. MAG is seeking solutions that deliver next-generation AODB tools within a modern and fit-for-purpose airport technology environment. Our aim is to procure a flexible, modular solution that operates inside our modern, API-first, decoupled architecture.

By participating in this process, you will help MAG gain a better understanding of the current market offerings and capabilities for AODB solutions. MAG will use the information gathered from this process to inform their procurement strategy and decision making. Please note that this process does not constitute a formal tender or invitation to bid, and MAG reserves the right to change or cancel the process at any time. Participation in this process does not guarantee or imply any future contractual relationship between MAG and any supplier. Suppliers who participate in this process will be responsible for their own costs and expenses. MAG will treat all information provided by suppliers as confidential and will not disclose it to any third parties without prior consent. Thank you for your interest in partnering with MAG on this strategic initiative. We look forward to hearing from you soon.

To participate in MAG's early market engagement process, please complete the following steps:

Register your interest at
