<https://education.app.jaggaer.com>

I.4) Type of the contracting authority

Ministry or any other national or federal authority

I.5) Main activity

Education

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Market Engagement Activity- suppliers and manufacturers of 'rekenrek style' abacuses

II.1.2) Main CPV code

- 39162000 - Educational equipment

II.1.3) Type of contract

Supplies

II.1.4) Short description

The purpose of this PIN is to initiate market engagement. It is not being used as a call for competition. The PIN is intended as an information-gathering exercise. This PIN is intended to:

- Explore whether there are organisations who can manufacture and supply and/or distribute 'rekenrek' style abacuses that can also demonstrate a low carbon footprint, ethical resourcing and value for money.

- We are interested in suppliers/ manufacturers who could commit to and have the capacity to deliver up to 360,000 abacuses to up to 6,000 schools in England from September 2021.

- The Department is particularly interested in limiting environmental impact and will be looking for responses which also demonstrate a low carbon footprint.

Specification for the rekenrek style abacus:

- Size of the frame: Approx: 25-30cm wide
- Material: Wood or robust plastic with metal rod for the beads. Frame colour unimportant.
- Must have two rows, each consisting of five red and five white beads (it is important that red beads come before white beads)
- Beads must be 0.8-1.5cm wide. Ideally beads should be of the flat type rather than fully round as young children find these easier to move.

There must be 20 beads in total.

- Function: It should be easy to tip back and forth so that beads easily slide across when tipped.
- Safety: They must be suitable for a child of 4 years old and accredited with the EU safety CE marking and BSI Kite Mark.

Background:

As part of our efforts to support numeracy development in schools, we are exploring the potential use of a specific abacus.

The expected timeline for this would be for delivery of abacuses to commence in September 2021. To meet this limited delivery timeframe, we are asking for responses

from manufacturers/ suppliers that confirm that they have the capability and the capacity to deliver by 17:00 GMT on Friday 21 May. We will then seek further information from those companies who contact us.

Manufacturers and suppliers who can respond positively to the criteria should contact the following email address by 17:00 GMT on Friday 21 May- maths.programme@education.gov.uk.

This notice is a zero value PIN for early market engagement. It is for information only and is not a call for competition. The Department for Education reserves the right not to enter a formal procurement process and not proceed with contract award.

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.2) Additional CPV code(s)

- 80000000 - Education and training services

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

II.2.4) Description of the procurement

This PIN is intended to:

Explore whether there are organisations who can manufacture and supply and/or distribute 'rekenrek' style abacuses that can also demonstrate a low carbon footprint, ethical resourcing practises and value for money.

II.2.14) Additional information

Manufacturers and suppliers who can respond positively to the criteria should contact the following email address by 17:00 GMT on Friday 21 May- maths.programme@education.gov.uk.

II.3) Estimated date of publication of contract notice

30 June 2021

Section IV. Procedure

IV.1) Description

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes
