Other activity

Ferry Operator

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Ramp Replacement for Small Vessel(s)

Reference number

AM21-079

II.1.2) Main CPV code

- 34500000 - Ships and boats

II.1.3) Type of contract

Supplies

II.1.4) Short description

CFL would like to award a Framework Agreement to a single supplier for EPIC of replacement ramp systems on the MV LOCH STRIVEN with the option to replace ramps on the MV LOCH FYNE (subject to funding).

The ramp systems are to be engineered, procured, installed and commissioned, and shall meet Classification Society & Flag State requirements.

The design approval from Classification Society and Flag State for the installation is part of the successful suppliers' deliverables

II.1.6) Information about lots

This contract is divided into lots: No

II.1.7) Total value of the procurement (excluding VAT)

Value excluding VAT: £1,843,000

II.2) Description

II.2.2) Additional CPV code(s)

- 34512100 - Ferry boats
- 50241200 - Ferry repair services
- 50241100 - Vessel repair services
- 34953100 - Ferry ramps

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

II.2.4) Description of the procurement

CFL would like to award a Framework Agreement to a single supplier for EPIC of replacement ramp systems on the MV LOCH STRIVEN with the option to replace ramps on the MV LOCH FYNE (subject to funding).

The ramp systems are to be engineered, procured, installed and commissioned, and shall meet Classification Society & Flag State requirements.

The design approval from Classification Society and Flag State for the installation is part of the successful suppliers' deliverables.

Where possible, the ramp systems shall interface with existing vessel hardware and systems.

The ramp systems shall take into account the following;

The vessel operates in a variety of ports on the West Coast of Scotland and the Western Isles. The port infrastructure is comprised of either linkspans or slipways and is mostly protected by small harbors/piers and alignment structures.

The concrete slipways at the ports are at a gradient of 1:8.

Consideration shall be given to the port infrastructure in both Oban and Lismore.

The existing ramps act as an anchor on the port infrastructure. To achieve this, the vessel's propulsion system is kept running to keep the vessel centered on the port infrastructure.

The existing ramps weigh approximately 8000kg each

II.2.5) Award criteria

Quality criterion - Name: Quality / Weighting: 60

Price - Weighting: 40

II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

II.2.14) Additional information

Evaluation Criteria will be detailed in the Invitation to Tender
