Description

THIS IS NOT A CONTRACT DETAILS NOTICE. Transport for London (TfL) is publishing this notice in order to generate an OCID for the existing Detection and Enforcement Infrastructure Agreement, which, due to technical constraints with the Find a Tender Service platform, cannot be obtained via another route. The information set out in this notice is not, and should not be taken as, a notice of any kind under any applicable public procurement legislation. To the extent other fields in this notice have been completed, that is for information only and because they are required to be completed in order to publish the notice. They should not be relied on or treated as authoritative. In some cases, constraints within the menu of options has meant TfL has been required to populate fields that do not reflect the features of the original procurement. For example, the contract value field has been populated with £100 (excluding VAT). This amount is a placeholder to enable submission of the form.

For details of the original procurement, please refer to the OJEU contract notice published in the Office Journal of the European Union under reference 2014/S 074-128241 which is attached to this notice (see Signed contract documents (2014-OJS074-128241 CN DEI.pdf) section).
