Reference number

SAM 006: NMPH Framework 6

II.1.2) Main CPV code

- 72200000 - Software programming and consultancy services
 - MA03 - For buses
 - MA08 - For railway use
 - MA09 - For transport
 - MA12 - For urban transport
 - MA14 - For boats
 - TA36 - For transport tickets

II.1.3) Type of contract

Services

II.1.4) Short description

Smart Applications Management Limited (SAM) is the trading name of South West Smart Applications Limited, a Membership based central purchasing body, which owns and runs the National Mobilities Procurement Hub for its Members.

This Framework is seeking the provision of multiple Software as a Service Lots providing Concessionary Travel Customer Management (CT-CMS), Commercial & Concessionary Travel Customer Management (CCT-CMS), and Business Intelligence & Reimbursement Systems, Development and Services.

Framework Lot 1 is for the provision of a Concessionary Travel Customer Management System (CT- CMS), which is the core customer management software delivering high quality management of sensitive customer information and acting as the key conduit between SAM or a SAM Member and all other elements of a Concessionary Travel System. There is a great importance on the ability of the CT-CMS to interact reliably with other non-ITSO and ITSO components to ensure full transparency of the customer activities. The CT-CMS Lot also provides the opportunity to provide optional elements desired by SAM Members, to complement the CT-CMS including a Web Interface for Online Concessionary Travel Applications & Product Management, and a Reimbursement Module for apportioning concessionary reimbursement payments to Operators.

Framework Lot 2 is for the provision of a Commercial & Concessionary Travel Customer Management System (CCT-CMS), which is the core customer management software delivering high quality management of sensitive customer information and acting as the key conduit between SAM or a SAM Member and all other elements of both a Concessionary and Commercial Travel System. There is a great importance on the ability of the CCT-CMS to interact reliably with other non-ITSO and ITSO components to ensure full transparency of the customer activities. The CCT-CMS Lot also provides the opportunity to provide optional elements desired by SAM Members, to complement the CCT-CMS including a Web Interface for Online Concessionary and Commercial Travel Applications and Product Management, and a Reimbursement Module for apportioning concessionary and commercial reimbursement payments to Operators.

Framework Lot 3 is for the provision of a Business Intelligence and Reimbursement Module supporting both the apportionment of concessionary and commercial travel reimbursements to operators, whilst at the same time bringing together all travel and customer data to support detailed data analytics and reporting for a SAM Member.

II.1.5) Estimated total value

Value excluding VAT: £15,000,000

II.1.6) Information about lots

This contract is divided into lots: Yes

Maximum number of lots that may be awarded to one tenderer: 3

II.2) Description

II.2.1) Title

Concessionary Travel Customer Management System (CT-CMS)

Lot No

1

II.2.2) Additional CPV code(s)

- 48000000 - Software package and information systems
 - MA03 - For buses
 - MA08 - For railway use
 - MA09 - For transport
 - MA12 - For urban transport
 - MA14 - For boats
 - TA36 - For transport tickets
- 60140000 - Non-scheduled passenger transport
- 60210000 - Public transport services by railways
- 72200000 - Software programming and consultancy services

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

II.2.4) Description of the procurement

Framework Lot 1 is for the provision of a Concessionary Travel Customer Management System (CT- CMS), which is the core customer management software delivering high quality management of sensitive customer information and acting as the key conduit between SAM

or a SAM Member and all other elements of a Concessionary Travel System. There is a great importance on the ability of the CT-CMS to interact reliably with other non-ITSO and ITSO components to ensure full transparency of the customer activities.

The CT-CMS Lot also provides the opportunity to provide optional elements desired by SAM Members, to complement the CT-CMS including a Web Interface for Online Concessionary Travel Applications & Product Management, and a Reimbursement Module for apportioning concessionary reimbursement payments to Operators.

The CT-CMS will act as a management tool to issue smart media and associated products, maintain the smart media while in use and finally take them out of use;

The CT-CMS will be capable of the administration of ITSO Shells and Products which are not on a card but on an alternative media such as a mobile phone;

The CT-CMS will be capable of providing information on:

- Products owned or managed by the SAM Member but hosted in a third party ITSO Shell.
- Third party products hosted in an ITSO Shell owned or managed by the SAM Member

The CT-CMS will be able to be partitioned to allow multiple Shell owners, retailers and Product owners to co-exist and be managed within partitions according to data protection and sharing parameters defined by the SAM Member and the shell owner, retailer or Product owner.

The CT-CMS will allow the SAM Member to own shells, product and the retailing functions for third parties who do not wish to own their own.

The CT-CMS will interface with a number of third party systems using an industry standard format, including but not limited to AMS-HOPS, Card Bureaus, Remote Fulfilment Server, Web Portals, Transit Settlement Systems, Data Analysis Packages and Payment Services.

The CT-CMS must have a GUI to enable governance and management of the data stored.

The CT-CMS must be scalable and capable of adding further partitions as required.

In addition, the CT-CMS may be further complemented through the provision of two Optional support services:

1. A Web Portal for the registration and management of concessionary travel passengers, and
2. A Business Intelligence and Reimbursement Module supporting both the apportionment

of concessionary travel reimbursements to operators, whilst at the same time bringing together all concessionary travel and customer data to support detailed data analytics and reporting for a SAM Member.

II.2) Description

II.2.1) Title

Commercial & Concessionary Travel Customer Management System (CCT-CMS)

Lot No

2

II.2.2) Additional CPV code(s)

- 48000000 - Software package and information systems
 - MA03 - For buses
 - MA08 - For railway use
 - MA09 - For transport
 - MA12 - For urban transport
 - MA14 - For boats
 - TA36 - For transport tickets
- 60140000 - Non-scheduled passenger transport
- 60210000 - Public transport services by railways
- 72200000 - Software programming and consultancy services

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

II.2.4) Description of the procurement

Framework Lot 2 is for the provision of a Commercial & Concessionary Travel Customer Management System (CCT-CMS), which is the core customer management software delivering high quality management of sensitive customer information and acting as the key conduit between SAM or a SAM Member and all other elements of both a Concessionary and Commercial Travel System.

There is a great importance on the ability of the CCT-CMS to interact reliably with other non-ITSO and ITSO components to ensure full transparency of the customer activities. The CCT-CMS Lot also provides the opportunity to provide optional elements desired by SAM Members, to complement the CCT-CMS including a Web Interface for Online Concessionary and Commercial Travel Applications and Product Management, and a Reimbursement Module for apportioning concessionary and commercial reimbursement payments to Operators.

The CCT-CMS will act as a management tool to issue smart media and associated products, maintain the smart media while in use and finally take them out of use;

The CCT-CMS will be capable of the administration of ITSO Shells and Products which are not on a card but on an alternative media such as a mobile phone;

The CCT-CMS will be capable of providing information on:

- Products owned or managed by the SAM Member but hosted in a third party ITSO Shell.
- Third party products hosted in an ITSO Shell owned or managed by the SAM Member

The CCT-CMS will be able to be partitioned to allow multiple Shell owners, retailers and Product owners to co-exist and be managed within partitions according to data protection and sharing parameters defined by the SAM Member and the shell owner, retailer or Product owner.

The CCT-CMS will allow the SAM Member to own shells, product and the retailing functions for third parties who do not wish to own their own.

The CCT-CMS will interface with a number of third party systems using an industry standard format, including but not limited to AMS-HOPS, Card Bureaus, Remote Fulfilment Server, Web Portals, Transit Settlement Systems, Data Analysis Packages and Payment Services.

The CCT-CMS must have a GUI to enable governance and management of the data stored.

The CCT-CMS must be scalable and capable of adding further partitions as required.

In addition, the CCT-CMS may be further complemented through the provision of two

Optional support services:

1. A Web Portal for the registration and management of commercial and concessionary travel passengers, and
2. A Business Intelligence and Reimbursement Module supporting both the apportionment of commercial and concessionary travel reimbursements to operators, whilst at the same time bringing together all commercial and concessionary travel and customer data to support detailed data analytics and reporting for a SAM Member.
