I.2) Information about joint procurement

The contract involves joint procurement

I.3) Communication

The procurement documents are available for unrestricted and full direct access, free of charge, at

<https://discovery.ariba.com/rfx/19317287>

Additional information can be obtained from the above-mentioned address

Tenders or requests to participate must be submitted electronically via

<https://discovery.ariba.com/rfx/19317287>

I.6) Main activity

Water

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Water Quality Modelling

II.1.2) Main CPV code

- 71800000 - Consulting services for water-supply and waste consultancy

II.1.3) Type of contract

Services

II.1.4) Short description

This tender process is for the provision of Water Quality Modelling. A summary of the scope forming part of this tender is stated below.

In response to requirements set by the Environment Act 2021 and the Storm Overflow Discharge Reduction Plan (SODRP) within AMP8, we aim to procure qualified contractors for River Water Quality Current Position Assessments. The overarching goal is to ensure STW adheres to the mandate of 'no local adverse ecological impact' from storm overflows. This section of the broader initiative involves a comprehensive evaluation of storm overflow impacts on river water quality, aligning with new regulatory drivers such as EnvActINV4 in England and W_U_INV1 in Wales.

This tender will be for the procurement of specialist consultant support to produce water quality models which assess the impact of storm overflows to river water quality. These range from simple to complex models based on performance of overflows and river condition

II.1.5) Estimated total value

Value excluding VAT: £5,000,000

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.2) Additional CPV code(s)

- 72242000 - Design-modelling services

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

II.2.4) Description of the procurement

This tender process is for the provision of Water Quality Modelling. A summary of the scope forming part of this tender is stated below.

In response to requirements set by the Environment Act 2021 and the Storm Overflow

Discharge Reduction Plan (SODRP) within AMP8, we aim to procure qualified contractors for River Water Quality Current Position Assessments. The overarching goal is to ensure STW adheres to the mandate of 'no local adverse ecological impact' from storm overflows. This section of the broader initiative involves a comprehensive evaluation of storm overflow impacts on river water quality, aligning with new regulatory drivers such as EnvActINV4 in England and W_U_INV1 in Wales.

This tender will be for the procurement of specialist consultant support to produce water quality models which assess the impact of storm overflows to river water quality. These range from simple to complex models based on performance of overflows and river condition

II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

Duration in months

60

This contract is subject to renewal

No

II.2.10) Information about variants

Variants will be accepted: No

II.2.11) Information about options

Options: No
