## Conflicts assessment prepared/revised

Yes

---

## Procedure

### Procedure type

Competitive flexible procedure

### Special regime

Utilities

## Competitive flexible procedure description

This procurement will be conducted under the Procurement Act 2023 using the Competitive Flexible Procedure. The procedure will consist of the following stages:

## Participation stage

Interested suppliers must complete a Procurement Specific Questionnaire (PSQ) to demonstrate compliance with the conditions to participate, including financial standing, technical capability and relevant experience. Responses will be evaluated against published criteria and a shortlist of up to 5 suppliers will be invited to the Supplier Safety Audit stage.

## Supplier Safety Audit

The suppliers that successfully pass the PSQ stage will invite Network Rail's auditors to come to their site and audit their safety practices. The procedures and processes will be related to the Health & Safety (ISO 45001) questions from within the PSQ. The audits will be evaluated against the Network Rail standard NR/L2/ASR/036 (Module 1). The results will be a Pass/Fail. Suppliers that pass this section will be shortlisted to tender.

## Tender Stage

Shortlisted suppliers will be invited to submit their commercial and technical tender via Network Rails Bravo Platform.

## Key features of the process

- PSQ will be released on the 7th February via Network Rails Bravo platform titled 'Provision of re-railing services and fitment of wheelskates'.
- All further communication and submissions will be managed via the Bravo Portal
- Variant tenders will not be permitted
- Evaluations will be based on the most advantageous tender (per region), considering both technical and commercial criteria.
- Compliance with all pass/fail conditions is mandatory throughout the process.

Please see the instruction to participants document which will be released at the participation stage for further details of these activities.
