Urban railway, tramway, trolleybus or bus services

---

**Section II: Object****II.1) Scope of the procurement****II.1.1) Title**

Provision of an Automatic Vehicle Inspection System

**II.1.2) Main CPV code**

- 50220000 - Repair, maintenance and associated services related to railways and other

equipment

### **II.1.3) Type of contract**

Services

### **II.1.4) Short description**

Southeastern are seeking a partner to supply and implement and maintain a system which facilitates the automated measurement and inspection of the condition of critical underframe components on rolling stock vehicles to improve maintenance efficiency.

An example of critical components that will be required include (but are not limited to):

- Brake pads (positioning & thickness)
- Collector shoes (contact surface condition, positioning, height and thickness and security of fixings)
- Wheel profiles and tire thickness measurements
- Wheel tread condition check
- Underframe (inspection of fixings and components which is able to identify loose, incorrectly oriented, damaged or missing components)

The system must be capable of inspecting and differentiating different rolling stock builds which may include as a minimum (but not be limited to):

Class 375

Class 377

Class 376

Class 395

Class 707

### **II.1.5) Estimated total value**

Value excluding VAT: £5,000,000

### **II.1.6) Information about lots**

This contract is divided into lots: No

## **II.2) Description**

### **II.2.3) Place of performance**

NUTS codes

- UKJ - South East (England)

Main site or place of performance

Ramsgate Maintenance Depot

### **II.2.4) Description of the procurement**

Southeastern are seeking a partner to supply and implement a system which facilitates the automated measurement and inspection of the condition of critical underframe components on rolling stock vehicles to improve maintenance efficiency.

An example of critical components that will be required include (but are not limited to):

- Brake pads (positioning & thickness)
- Collector shoes (contact surface condition, positioning, height and thickness and security of fixings)
- Wheel profiles and tire thickness measurements
- Wheel tread condition check
- Underframe (inspection of fixings and components which is able to identify loose, incorrectly oriented, damaged or missing components)

Class 375

Class 377

Class 376

Class 395

Class 707

### **II.2.5) Award criteria**

Price is not the only award criterion and all criteria are stated only in the procurement documents

### **II.2.7) Duration of the contract, framework agreement or dynamic purchasing system**

Duration in months

60

This contract is subject to renewal

No

### **II.2.10) Information about variants**

Variants will be accepted: Yes

### **II.2.11) Information about options**

Options: Yes

Description of options

The contract shall be for the initial development and installation of the system but will also require ongoing maintenance.

The installation and initial maintenance agreement is expected to be two years but may differ depending on warranties offered by bidders, with extension options available to take the total term of the agreement up to 5 years

---

## **Section III. Legal, economic, financial and technical information**

### **III.1) Conditions for participation**

#### **III.1.1) Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers**

List and brief description of conditions

Selection criteria as stated in the procurement documents

#### **III.1.2) Economic and financial standing**

List and brief description of selection criteria
