Scope

Description

The contracting authority is looking to procure a set of climate scenarios that articulate the impact of climate change on the assumptions that it makes as part of its actuarial advice work.

The climate scenarios will articulate adjustments to financial assumptions - including asset returns (such as returns on equities or bonds), inflation indices (e.g. CPI and wages) and economic variable (e.g. GDP etc).

The data will include a range of climate scenarios - for example under different levels of global warming or different speeds of policy response.
