The Scheme's ambitious priorities for the 2020s will only be achieved through the ongoing and systemic transformation of our strategy, environment and leadership. The Financial Services Compensation Scheme is looking to appoint a Service Provider to deliver a business transformation consultancy service that deals with our entire business system - as opposed to dealing with its different parts independently ? not only to establish our strategy formulation as a vital force but also to impart real energy to the strategic process. The Service Provider must practice outcomes based leadership and apply a holistic, synergistic, and balanced approach to business systems that supports an effective re-engineering of our Target Operating Model to successfully meet the challenges and opportunities of the decade ahead.
