To allow the continuation of several ongoing and future research projects we require the ability to purchase consumables and servicing of our existing equipment

II.2.11) Information about options

Options: No

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Award of a contract without prior publication of a call for competition in the cases listed below

- The procurement falls outside the scope of application of the regulations

Explanation:

X-vivo produces equipment for our perfusion projects which are uniquely manufactured and serviced by them alone. No other supplier manufactures consumables for Liver Assist devices nor do they have the expertise to service the devices. X-vivo has enabled us to create customized equipment to suit our project needs. The Liver Assist is a unique device in that it allows both normothermic (36 - 38 degrees Celsius) and hypothermic (2 - 10 degrees Celsius) perfusion of livers to facilitate our projects we require the ability to perfuse organs at varying temperatures. No other perfusion devices offer this dual function. We have several projects both ongoing and planned utilizing the Liver Assist device to perfuse liver organs to ensure research continuity.

IV.1.3) Information about a framework agreement

The procurement involves the establishment of a framework agreement

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes
