Description

The HHCP exists to improve health access and decrease health inequalities by building focus and capacity:

Identifying the health needs of service users and improving awareness.

Working with a multitude of services to raise the capacity of supported housing providers to support service users to improve their health outcomes through training, information and facilitating a range of health events.

Creating toolkits and information sheets and directories, providing up to date best practice and easy access details of services in Westminster.

Bespoke project work, evaluations and small-scale research to support addressing emerging health issues.

Responsible Procurement - Technical Deliverables	For contracts of below £500,000 value, with services that deliver inherent social value and are likely to be delivered by smaller suppliers and/or those within the VCSE sector, the council has designed a social value approach that aims to maximise the impact our suppliers can make whilst minimising resources required. For many years, Westminster City Council has been working with suppliers, especially strategic partners to tailor our social value delivery to our communities. However, there are gaps in understanding the real-world circumstances and challenges within our communities. To bridge these gaps, the council deems the optimum social value output associated with this contract to be the contractor sharing insights on service user and/or wider community needs and contexts, with stakeholders who are committed to addressing those needs. Suppliers are therefore asked to deliver a total of at	Quality	10%
