Additional information can be obtained from the above-mentioned address

I.6) Main activity

Water

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Goods-PIN-Supply and delivery of Ferric Sulphate

Reference number

PRO004468

II.1.2) Main CPV code

- 24313122 - Ferric sulphate

II.1.3) Type of contract

Supplies

II.1.4) Short description

United Utilities has a requirement for the supply and delivery of Ferric Sulphate. Ferric Sulphate or (Ferric Sulfate) (or $\text{Fe}_2(\text{SO}_4)_3$) is used on both water and wastewater sites at United Utilities as a coagulant. Ferric Sulphate is an inorganic chemical compound that is used to lower pH and/or flocculate contaminants in wastewater to aid in co-precipitation and removal of solids and metals. On clean water sites ferric sulphate is used as a coagulant.

The demand for Ferric Sulphate is increasing and will continue to do so over the next 4 years, after which it will stabilise at the higher volume.

The purpose of this pre-market engagement is to gain a view across a number of key areas to help determine our strategy and best approach to secure the long term supply of Ferric Sulphate, catering for the increased demand.

Any subsequent procurement will be advertised at a later date via a separate notice.

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.2) Additional CPV code(s)

- 24313122 - Ferric sulphate

II.2.3) Place of performance

NUTS codes

- UKD - North West (England)

II.2.4) Description of the procurement

United Utilities has a requirement for the supply and delivery of Ferric Sulphate. Ferric Sulphate or (Ferric Sulfate) (or $\text{Fe}_2(\text{SO}_4)_3$) is used on both water and wastewater sites at United Utilities as a coagulant. Ferric Sulphate is an inorganic chemical compound that is used to lower pH and/or flocculate contaminants in wastewater to aid in co-precipitation and removal of solids and metals. On clean water sites ferric sulphate is used as a coagulant.

The demand for Ferric Sulphate is increasing and will continue to do so over the next 4 years, after which it will stabilise at the higher volume.

The purpose of this pre-market engagement is to gain a view across a number of key areas to help determine our strategy and best approach to secure the long term supply of Ferric Sulphate, catering for the increased demand.

Any subsequent procurement will be advertised at a later date via a separate notice.

II.2.14) Additional information

United Utilities are looking to issue a Contract Notice over the coming months for the supply of ferric sulphate. The volumes required throughout AMP 7 will increase year on year until financial year 2024/25.

Current and forecasted volumes are available on the Additional Information document attached to this notice in Appendix 1, Questions and tables.

II.3) Estimated date of publication of contract notice

6 September 2021

Section IV. Procedure

IV.1) Description

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: No

Section VI. Complementary information

VI.3) Additional information
