II.1.4) Short description

The University seeks to establish a Framework Agreement for the provision of design consultancy and advisory services for both construction and sustainability professional services.

The University seeks consultant(s) who will work collaboratively with the University and other team members and comply with the University's procedures to ensure that the following are achieved;

- The space and functionality standards are achieved
- The operational functionality meets or exceeds end users expectations
- Ensure the capital/maintenance project achieves best value and is delivered within the budget threshold
- Work with the University to ensure the whole life costs are affordable and provide life cycle costings
- Ensure the design is sustainable and meet or exceed the University's sustainability targets
- Work with the Consultant to ensure the delivery of the project is achieved with minimal impact by the adoption of soft landing techniques.
- Use of Common Data Environments for design collaboration, contract administration and quality management, including BIM
- Development of designs which allow safe and easy maintenance solutions and will fully align with Estates Services design guides and other relevant user specifications

This Framework Agreement is intended to comprise of 12 Lots, please refer to the Lot description for each Lot for full details.
