- 79413000 - Marketing management consultancy services
- 79415000 - Production management consultancy services

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

II.2.4) Description of the procurement

National Savings and Investments (NS&I) is an Executive Agency of the Chancellor of the Exchequer. We are one of the UK's largest retail savings organisations with 25 million customers and more than £202 billion invested.

Whilst being famous for Premium Bonds, we also offer a range of savings products. We work closely with HM Treasury to raise vital funds for government, by offering secure retail financial savings products as an alternative to raising funds on the wholesale market.

Our goal is to always enhance the customer experience whilst strengthening our cost efficiency on our journey to becoming the most trusted savings provider. As part of this journey, we are transforming the way we operate.

NS&I's core services are currently provided by Atos IT Services UK Limited, who manage sales processing and customer servicing, and IT and infrastructure services. This contract will end on 31st March 2025. We are moving from this single-supplier model to a multi-supplier model as part of our significant transformation of outsourced services, called the Rainbow Programme.

The second procurement in NS&I's Rainbow Programme, Digital Experience and Digital Enablement package, will provide the capabilities needed to deliver digital self-service experiences and journeys. This includes, as a minimum, the delivery of a mobile banking app (to include prize draw functionality) and a fully functional transactional website, to be supported by digital communications touchpoints.

We aim to provide a great service, with the most suitable products, to allow customers to achieve their Jobs to be Done with ease and reduced effort, allowing them to focus on saving for what matters to them.

Over the years, we have transitioned from branch-based banking to our current state as a direct-only business with digital, post and phone channels. This package will bring us to the endpoint of that trajectory, transitioning to a digital first, self-service retail bank. That endpoint will meet customer expectations for effective, digital self-service, and deliver cost-effective operational excellence.

This procurement is also intended to allow for future delivery of digital experience services to support NS&I GPS activities.

The total estimated contract spend is £126m before VAT and inflation. The value of any extension requested is estimated at £42.6m. The proposed contract duration and extension options are:

- Initial Term - 56 months (including Implementation)
- Extension Period - potential further 24 months (12 months + 6 months + 6 months)

Our products must remain relevant and accessible to customers, delivered in a quicker, more efficient and increasingly digital way. We look forward to working with a partner who can help us realise this goal on our transformation journey, as we aim to inspire our savers to stay with

us as we evolve, together.

II.2.14) Additional information

The Authority reserves the right not to award the opportunity or to award only part (or a different arrangement) of the opportunity described in this contract notice.

The Proposed Contract will be procured using the CCS Technology Services 3: Framework RM6100, Lot 4: Major Services Transformation Programmes under a Further Competition exercise. <https://www.crowncommercial.gov.uk/agreements/RM6100>

=====

Market Engagement Event – Indicative date: Thursday, 11th May 2023

=====

This initial event will be delivered virtually, with presentations from core members of the NS&I programme team, to interested Framework Lot 4 providers.

The event aims to provide potential suppliers with a greater understanding of NS&I, and our ambitions for the future business. It will explain the procurement opportunity and timeline. There will also be an opportunity for potential suppliers to engage and ask questions.

II.3) Estimated date of publication of contract notice

22 May 2023

Section IV. Procedure

IV.1) Description
