II.2.4) Description of the procurement

This framework covers a wide range of services associated with Demolition and Site Enabling Works, including but not limited to:

Demolition: The dismantling, destruction, or removal of structures, buildings, or infrastructure, in compliance with the Health and Safety at Work Act 1974, the Construction (Design and Management) Regulations 2015, and other relevant UK statutory laws.

Wrecking Work: Activities involving the breakdown or dismantling of existing structures, including controlled explosions when necessary, carried out in accordance with the Explosives Regulations 2014 and the Control of Major Accident Hazards (COMAH) Regulations 2015.

Earthmoving/Groundworks: Excavation, grading, and movement of soil, rock, or other materials to prepare sites for construction or redevelopment, complying with the Control of Substances Hazardous to Health (COSHH) Regulations and other associated UK safety legislation.

Site Preparation: Clearing, levelling, and preparing land for construction or development activities, ensuring compliance with the Environmental Protection Act 1990 and the Landfill (England and Wales) Regulations 2002.

Clearance Work: The removal of debris, hazardous materials, and unwanted structures from sites, ensuring safety and compliance with regulations such as the Hazardous Waste Regulations 2005 and the Health and Safety (Construction) Regulations 2007.

ProcurePublic will assess tenderers based on their compliance with relevant UK statutory laws, safety regulations, and industry best practices. All suppliers will be required to demonstrate their qualifications and adherence to relevant trade associations, including the likes of National Federation of Demolition Contractors (NFDC), the British Safety Council (BSC), and the Construction Industry Training Board (CITB). Suppliers must also hold the appropriate qualifications, such as Construction Skills Certification Scheme (CSCS) cards, and provide evidence of relevant experience in carrying out works of a similar scale and complexity.
