These include economic regeneration, carbon and waste reduction, training and employment initiatives, training of their staff to new ways of working, BIM, new models of construction procurement, Construction Playbook and Construction Innovation Hub Value toolkit.

In addition there will be significant investment required from clients in undertaking the selection and evaluation process, and in particular the training of their staff and consultants to new ways of working. The partnering and collaborative working objectives that will form part of this framework may only be capable of being realised over longer periods of time than 4 years, not least because a number of public sector bodies may only start using this framework when their existing arrangements expire. Further details are set out in the framework documents. Provisional timetable for recourse to these options: in
