II.1.4) Short description

The successful Service Provider shall deliver an integrated technology platform and infrastructure to deliver the required functionality, resilience, and security to meet WCC's requirements and Service Levels.

The service shall include:

- A secure, integrated CCTV technology solution
- Hosting services including the computing environment, the provision and support of a stable infrastructure, business continuity, and effective and efficient performance of operations
- Data storage, backup, recovery, and archiving capability
- Maintenance and support of all supplied applications, hardware, and integration
- Integrate WCC provided services and infrastructure, including Back-office systems such as the Notice Processing System
- Fully GDPR compliant solutions and services

It is to be noted that this is a standalone contract outside of any other CCTV related contracts that the council may have. There may be future dialogue with other directorates

for the council to holistically understand the future of CCTV related services across the council and whether there is scope for future consolidation of contracts.

This service is dependent on the following services being procured separately but commencing at the same time:

- Parking Technology contract (i.e. video clips taken transfer into the new technology PCN system)
- Business Processing Service contract

The combined requirements of these procurements are designed to make a positive impact on traffic management in terms of managing movement, enabling motorists to park in a compliant manner, and therefore maximising the legal use of the available parking in the City
