Description

1. Background: Department for Education is seeking to establish a new Construction Framework, the existing Construction Framework (CF21) is set to expire in November 2025.
2. Scope: The Department is establishing a closed framework for the construction of new and refurbished schools, and other educational buildings (including colleges and university buildings), together with community facilities and/or public buildings which are ancillary to such education facilities or form part of the development on the same site in England.
3. Framework Term: initial six-year term with the option to extend for up to an additional two further years (one year plus one year), starting from the date the Framework Agreements are signed.
4. The associated tender documents (Invitation to Tender volumes) contain a full description of the works requirements including Employer's Requirements (specification), Contract Documents and Pricing Documents.

Lot constraints

Description of how multiple lots may be awarded:

Stage 1 PSQ:

1. To pre-qualify for multiple Lots, Potential Suppliers must pass all the criteria for the Value Band(s) they are wishing to secure a place on.

2. Where Potential Suppliers successfully meet the criteria of the Value Bands(s), they may tender for any or all Lots within the stated Value Band at Stage 2.

Stage 2 ITT:

3. Where Potential Suppliers intend to bid for a place on 'Overlapping Lots' (Lots situated

in adjacent Value Bands located in the same region) they must provide a clear indication of their Lot preferencing (1st and 2nd) wherever such an overlap occurs

4. All submitted bids will be evaluated in every Lot to generate a ranking for all compliant bids. The rankings will be used to determine the highest scoring eligible Potential Suppliers.

5. If a Potential Supplier is successful in their 1st preference Lot(s), they will be deemed ineligible for award to their 2nd preference Lot except where number 8 (below) applies.

6. If a Potential Supplier is unsuccessful in their first preference Lot then the 2nd preference (defined as an Overlapping Lot) will be treated as a 1st preference for the purposes of allocation prior to any Potential Suppliers being considered in line with number 8.

7. The above will continue until all Lot places are awarded to eligible Potential Suppliers and all Lot available places are filled.

8. Following the process above, if places remain unfilled within a Lot due to low volume of successful allocations or because of the Overlapping Lot rule (described above) the Department will dis-apply the Overlapping Lot rule and then seek to fill the vacancies on a Lot(s). This will be done by identifying the highest scoring 2nd preference bids for the Lot(s) in question (as per the original evaluation approach described in number 2 above) to fill the vacancies on the applicable Lot(s) until the places on Lots are filled (unless there are more vacancies than there are eligible 2nd preference Lot bids).

9. Where following the PSQ stage, a Potential Supplier is shortlisted in respect of one Value Band only, the Lot(s) they submit a Tender for in that Value Band will be deemed to be their 1st preference.

Full information is contained within the associated tender documents.

Justification for framework term over 4 years

The Department considers that the complex nature of the design and build construction works to be delivered under this framework necessitates a longer-term approach. A framework of extended duration is essential to:

1. Enhance Supplier Capability and Innovation -encourages continuous improvement, innovation, and the development of expertise required to meet the Department's complex needs.
2. Enable Supplier Investment - longer-term, predictable pipeline of work supports investment in skills, technology, and infrastructure, ensuring better value and performance.
3. Support the Construction Lifecycle - alignment of framework duration with the construction project lifecycle promotes performance-based improvements and ensures

consistency in delivery.

Framework operation description

1. Price: Framework Members must price each Scheme in accordance with the Pricing Rules
2. Selection Process: Mini-Competition or Direct Allocation in accordance with the Framework Agreement
3. Where mini-competition is used for the awarding of Scheme contracts, details of the competitive selection process to be used is contained within Schedule 4 of the Framework Agreement (Volume 6) of the associated tender documents.
