Description

Your Housing Group (YHG) are seeking to replace its existing software for housing management, asset management and repairs management and are seeking a new fully integrated system. This will include options to support Fix360, the YHG internal repairs and maintenance contractor, using integration to existing systems, or potential replacement options.

The aim is to efficiently consolidate and integrate solutions, onto a modern Cloud based platform to leverage efficiencies and increase customer satisfaction.

Responsive browser presentation will be expected, to free staff to be more mobile and work more flexibly wherever required, on schemes, within offices or accessing systems securely from home. One other key goal is to provide excellent self-service facilities for tenants and other customers, whenever needed or desired. A Digital First and Cloud

methodology is being pursued, across YHG. This makes the most of ICT investment, while potentially enabling staff to have access to solutions and applications, wherever they have connectivity. Cloud delivered applications proposed, will be expected to enforce high standards of Penetration Testing and compliance/adherence to the Cloud Security Principles.

Other information

Payment terms

YHG requires all invoices to have a YHG Purchase Order number. YHG will pay within 30 days of receipt of a valid, undisputed invoice with a valid YHG PO number on the invoice. Further details around payment clauses etc. will be found within the tender documentation.

Description of risks to contract performance

The scope and value of the contract may be directly impacted by a number of risks which may materialise during the term of the contract. These include 1. legislative changes that impact the social housing sector. 2. Ability of the successful supplier to meet the agreed implementation plan for the new system. 3. Required interfaces to existing or other procured 3rd party systems. 4. Data quality and availability. 5. Changes to resource and personnel of either YHG or the successful supplier. 6. The proposed solution no longer being fit for purpose for the requirements of the organisation. There may be more risks identified which will be further described within the tender notice.

Procedure

Procedure type

Competitive flexible procedure

Competitive flexible procedure description

YHG intends to use the Competitive flexible procedure with the following stages anticipated:

Stage 1 - Conditions of Participation - interested parties must submit their information for Conditions of Participation and the Procurement Specific Questionnaire, this will include technical and project specific pass/fail criteria that must be met to participate in the process.

There will be down-selection of bidders after Stage 1.

Stage 2 - Dialogue and Invitations to Tender - bidders successful at Stage 1 will be invited to dialogue sessions with YHG in order to discuss our requirements in more detail and prepare their invitation to tender submissions. This will involve both a quality and price assessment. It is anticipated at this point that the headline criteria will be weighted 70% Quality, 30% Price.

There will be a down-selection of bidders after evaluation and moderation of Stage 2.

Stage 3 - System Demonstrations - bidders successful at Stage 2 will be invited to hold system demonstrations at YHG's offices which will be used principally to clarify and moderate their quality scores further from Stage 2.

There will be a final down-selection of bidders after moderation of Stage 3.

The remaining bidders will be invited to Stage 4 - Negotiations - YHG anticipates doing up to 2 rounds of negotiation with the final bidders around cost, contract terms and overall proposals.

Best and Final Offers will then be sought ahead of a Contract Award.

YHG reserves the right to vary any aspect of this proposed approach within the final Tender Notice.
