Scope

Reference

P00125

Description

LCIV wishes to procure data sets and modelling, scenario and risk analysis tools and related services which will be used to support the delivery of asset class modelling and allocation services to our Partner Funds, including advising on the appropriate risk profile for Partner Funds to take into account their strategic objectives and risk appetites. The data, tools and services must cover the full range of public and private market strategies used by the London Local Authority LGPS.

LCIV is inviting suppliers to bid their respective solutions, including proof-of-concept presentations which will enable bidders to demonstrate (and LCIV to evaluate) detailed functional capabilities of the proposed solutions, and the method of delivery of these solutions to the authority.

We anticipate that the appointed supplier will enter into a single agreement with LCIV for the provision of data and services and that such data and services will be allowed to be passed onto shared with our Partner Funds where they have a contractual agreement with LCIV for such services.

Total value (estimated)

- £2,700,000 including VAT

Above the relevant threshold

Contract dates (estimated)

- 1 January 2026 to 31 December 2028
- Possible extension to 31 December 2032
- 7 years

Description of possible extension:

Subject to satisfactory performance and ability to accommodate any service changed arising during the contract period, the initial contract period may be extended.

Cost of providing the services	Cost	6

Other information

Conflicts assessment prepared/revised

Yes

Procedure

Procedure type

Competitive flexible procedure

Competitive flexible procedure description

The procurement will be structured into two key stages:

a. Stage 1: Selection

i. Applicants who have expressed an interest in the procurement will need to pre-qualify and must complete the Procurement Specific Questionnaire (PSQ) and have registered their details on the Central Digital Portal (CDP) within the Find a Tender portal.

ii. The PSQ sets out the information required by the authority in order to assess the suitability of applicants to perform the Services as well as their economic and financial standing and technical and professional ability.

iii. Tenders will be evaluated based on the bidder's written submission and proof of concept presentations.

iv. LCIV reserves the right to limit the number of applicants that are invited to Stage 2 of the procurement to no more than 5 that have received the highest scores under section 3 of the PSQ.

b. Stage 2: Invitation to Tender

i. The Authority will issue an ITT to applicants that are shortlisted to Stage 2 following the evaluation of the PSQ responses.

ii. A draft ITT will be made available to applicants on request via email during Stage 1 of the procurement for information only. Applicants must not respond to the draft ITT during Stage 1 of the procurement.

Justification for not publishing a preliminary market engagement notice

Market engagement was light touch exercise to help shape the requirement, this service requirement has been brought about by regulatory change.
