Section II: Object

II.1) Scope of the procurement

II.1.1) Title

FLS-0071-FW Responsive Chainsaw Operations, Arboriculture Work & Dangerous Tree Surveys

Reference number

FLS-0071-FW

II.1.2) Main CPV code

- 77300000 - Horticultural services

II.1.3) Type of contract

Services

II.1.4) Short description

Forestry & Land Scotland (FLS) has a requirement to let a Framework Agreement to external service providers for the provision of Responsive Chainsaw Operations, Arboriculture Work & Dangerous Tree Surveys.

This framework shall cover chainsaw, arboriculture services and tree surveying including, tree felling, road line felling, clearing wind blow, tree surgery and many other related services. It will also include the facility for clearing up the site following chainsaw operations such as small machinery extraction, via tractor mounted winch, mini forwarder.

This Framework is split into two different requirements: Lots 1-18 Responsive Chainsaw Operations and Lots 19-38 Arboriculture Work & Dangerous Tree Surveys.

The Framework term is four (4) years with no option to extend.

II.1.6) Information about lots

This contract is divided into lots: Yes

Tenders may be submitted for all lots

Maximum number of lots that may be awarded to one tenderer: 6

II.2) Description

II.2.1) Title

Lot 1 - North Highland (Responsive Chainsaw Operations)

Lot No

1

II.2.2) Additional CPV code(s)

- 77000000 - Agricultural, forestry, horticultural, aquacultural and apicultural services
- 77200000 - Forestry services
- 77231000 - Forestry management services
- 77211400 - Tree-cutting services
- 77211300 - Tree-clearing services

II.2.3) Place of performance

NUTS codes

- UKM - Scotland

II.2.4) Description of the procurement

Lot 1 - North Highland (Responsive Chainsaw Operations)

This lot shall include the following core services:

Tree felling

Road line felling

Regen clearing

Diseased tree clearance

Road clearance

Oversized tree felling

Clearing wind blow

Clearance of hazardous trees

Minor harvesting support

Conversion of felled trees into marketable timber

Cross cutting into lengths

Sned out and leave arisings on the ground

Use of hand winch

Tractor/agricultural mounted powered winch or line skidding operations

Traffic management including stop/go boards, provision of a banksman, provision of traffic lights

Tree removal prior to, during, and after peatland restoration works – trees to be felled, delimbed, and material removed from within 5 metres of a watercourse.

Brashing

Use of towed chippers and self-propelled tracked/wheeled chippers with trained operatives

II.2.5) Award criteria

Quality criterion - Name: Technical / Weighting: 60

Price - Weighting: 40

II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

Duration in months

48

This contract is subject to renewal

No

II.2.10) Information about variants

Variants will be accepted: No

II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

II.2) Description

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

II.2) Description

II.2.1) Title

Lot 15 - South Region - Central (Responsive Chainsaw Operations)

Lot No

15

II.2.2) Additional CPV code(s)

- 77000000 - Agricultural, forestry, horticultural, aquacultural and apicultural services
- 77200000 - Forestry services
- 77231000 - Forestry management services
- 77211300 - Tree-clearing services
- 77211400 - Tree-cutting services

II.2.3) Place of performance

NUTS codes

- UKM - Scotland

II.2.4) Description of the procurement

Lot 15 - South Region - Central (Responsive Chainsaw Operations)

This lot shall include the following core services:

Tree felling

Road line felling

Regen clearing

Diseased tree clearance

Road clearance

Oversized tree felling

Clearing wind blow

Clearance of hazardous trees

Minor harvesting support

Conversion of felled trees into marketable timber

Cross cutting into lengths

Sned out and leave arisings on the ground

Use of hand winch

Tractor/agricultural mounted powered winch or line skidding operations

Traffic management including stop/go boards, provision of a banksman, provision of traffic lights

Tree removal prior to, during, and after peatland restoration works – trees to be felled, delimbed, and material removed from within 5 metres of a watercourse.

Brashing

Use of towed chippers and self-propelled tracked/wheeled chippers with trained operatives

II.2.5) Award criteria

Quality criterion - Name: Technical / Weighting: 60

Price - Weighting: 40

II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

Duration in months

48

This contract is subject to renewal

No

II.2.10) Information about variants

Variants will be accepted: No

II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds

- 77211400 - Tree-cutting services

II.2.3) Place of performance

NUTS codes

- UKM - Scotland

II.2.4) Description of the procurement

Lot 19 - North Highland (Arboriculture Work & Dangerous Tree Surveys)

This lot shall include the following core arboriculture services:

Tree felling

Clearing wind blow

Tree surgery

Completion of crown reduction/side pruning/whole tree removal from within registered seed stand/orchard

Cross cutting into lengths

Use of hand winch

Rope access work

Traffic management including stop/go boards, provision of a banksman, provision of traffic lights

Sned out and leave arisings on the ground

Chipping of arisings

Disposal of arisings off-site

Stump grinding

MEWP

Powered pole pruning

Tractor/agricultural mounted powered winch or line skidding operations

Halo thinning (no climbing)

This lot shall include the following dangerous tree survey formal inspections:

Roots – inspecting ground about the tree for signs of root damage, root lift, fungal fruiting bodies or indications of intrusive excavations or evidence of recent level changes.

Base – looking for indications of damage to buttresses and lower stem. Indications of decay and fungal fruiting bodies, girdling roots, loss of bark, cavities, or stress cracks.

Stem – indications of fibre buckling, bottle necking, swellings, cavities, wounds, fungal fruiting bodies, necrotic bark, progressive lean, appropriate crown stem ratio, compression forks or ribs.

Scaffold (first order) Limbs – hazard beams, hanging snapped limbs, decay, cavities, fungal fruiting bodies, compression forks, bulges, cankers, necrotic bark, spiral cracks, shear cracks and bombs or deadwood.

Second order Limbs - as per Scaffold limbs.

Foliage - chlorosis of leaves, symmetry of the crown, gaps in the canopy, dis-colouration

of leaves and twigs, Fungal fruiting bodies, dieback, leaf size and shape.

II.2.5) Award criteria

Quality criterion - Name: Technical / Weighting: 60

Lot 27 - Isle of Mull (Arboriculture Work & Dangerous Tree Surveys)

Lot No

27

II.2.2) Additional CPV code(s)

- 77000000 - Agricultural, forestry, horticultural, aquacultural and apicultural services
- 77200000 - Forestry services
- 77231000 - Forestry management services
- 77211300 - Tree-clearing services
- 77211400 - Tree-cutting services
- 71355000 - Surveying services
- 79311000 - Survey services

II.2.3) Place of performance

NUTS codes

- UKM - Scotland

II.2.4) Description of the procurement

Lot 27 - Isle of Mull (Arboriculture Work & Dangerous Tree Surveys)

This lot shall include the following core arboriculture services:

Tree felling

Clearing wind blow

Tree surgery

Completion of crown reduction/side pruning/whole tree removal from within registered seed stand/orchard

Cross cutting into lengths

Use of hand winch

Rope access work

Traffic management including stop/go boards, provision of a banksman, provision of traffic lights

Sned out and leave arisings on the ground

Chipping of arisings

Disposal of arisings off-site

Stump grinding

MEWP

Powered pole pruning

Tractor/agricultural mounted powered winch or line skidding operations

Halo thinning (no climbing)

This lot shall include the following dangerous tree survey formal inspections:

Roots – inspecting ground about the tree for signs of root damage, root lift, fungal fruiting bodies or indications of intrusive excavations or evidence of recent level changes.

Base – looking for indications of damage to buttresses and lower stem. Indications of decay and fungal fruiting bodies, girdling roots, loss of bark, cavities, or stress cracks.

Stem – indications of fibre buckling, bottle necking, swellings, cavities, wounds, fungal fruiting bodies, necrotic bark, progressive lean, appropriate crown stem ratio, compression forks or ribs.

Scaffold (first order) Limbs – hazard beams, hanging snapped limbs, decay, cavities, fungal fruiting bodies, compression forks, bulges, cankers, necrotic bark, spiral cracks,

shear cracks and bombs or deadwood.

Second order Limbs - as per Scaffold limbs.

Foliage - chlorosis of leaves, symmetry of the crown, gaps in the canopy, dis-colouration of leaves and twigs, Fungal fruiting bodies, dieback, leaf size and shape.

II.2.5) Award criteria

Quality criterion - Name: Technical / Weighting: 60

Price - Weighting: 40

II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

Duration in months

48

This contract is subject to renewal

No

II.2.10) Information about variants

Variants will be accepted: No

II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

The procurement is related to a project and/or programme financed by European Union funds: No

Section III. Legal, economic, financial and technical information

III.1) Conditions for participation

III.1.2) Economic and financial standing

Minimum level(s) of standards possibly required

Employer's (Compulsory) Liability: 5 million GBP

Public Liability: not less than 5 million GBP for any one incident and unlimited in total.

III.1.3) Technical and professional ability

Minimum level(s) of standards possibly required

Please see full details within the PCS-T project.

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Open procedure

IV.1.3) Information about a framework agreement or a dynamic purchasing system

The procurement involves the establishment of a framework agreement

Framework agreement with several operators

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes

IV.2) Administrative information

IV.2.1) Previous publication concerning this procedure

Notice number: [2023/S 000-020298](#)

IV.2.2) Time limit for receipt of tenders or requests to participate

Date

17 May 2024

Local time

12:00pm

IV.2.4) Languages in which tenders or requests to participate may be submitted

English

IV.2.7) Conditions for opening of tenders

Date

20 May 2024

Local time

12:00pm

Section VI. Complementary information

VI.1) Information about recurrence

This is a recurrent procurement: No

VI.3) Additional information

The buyer is using PCS-Tender to conduct this ITT exercise. The Project code is 26305.
For more information see:

<http://www.publiccontractsscotland.gov.uk/info/InfoCentre.aspx?ID=2343>

A sub-contract clause has been included in this contract. For more information see:

<http://www.publiccontractsscotland.gov.uk/info/InfoCentre.aspx?ID=2363>

The Contracting Authority does not intend to include any community benefit requirements in this contract for the following reason:

Community benefits have been considered and are not directly related to the type of services required. Although this is a 11M GBP framework, there are a large number of lots and individual call-off's will often be short term jobs where their value and duration does not make it proportionate to require community benefits. This is a multi-supplier framework so the value of spend may be spread across several suppliers, affecting the

proportionality of including this as a requirement.

However, the standard information on the FLS approach to community benefits will be inserted into the ITT and bidders will be asked to outline their approach to community benefits as a non-scored response. If successful, the winning bidder will be required to discuss the content of their community benefit proposal and agree a plan for the delivery of the agreed community benefits which will become a condition of the contract.
