LHC is seeking interest from suitable organisations for our Manufacture and Supply of Domestic Kitchens and Associated Products (K7)

This procurement exercise is to establish a replacement to our successful K6 - Kitchen Supply framework. the scope of this framework will be the manufacture and supply of high quality domestic kitchens, worktops, and associated products which should be suitable for use in both public sector housing and non-housing buildings throughout England, Wales and Scotland.

Building on our existing K6 framework, with K7 we are focusing on enhancing the supply of affordable and quality kitchen ranges including, inclusive (disability) ranges.

The framework is based on manufacture and supply only, there is no installation element expected to be delivered through this framework.

Please note as part of the bid assessment process LHC intend to carry out a scored factory visit at the main manufacturing location for the products that will be supplied by the bidder for this framework. During the tender period organisations that express their intention to bid for this opportunity will be requested the details of their factory location to enable LHC to plan the number and locations of likely factory visits to be carried out.
