<https://www.bcu.ac.uk/>

I.3) Communication

Additional information can be obtained from the above-mentioned address

I.4) Type of the contracting authority

Body governed by public law

I.5) Main activity

Education

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Access Control RFI

Reference number

IT143

II.1.2) Main CPV code

- 42961100 - Access control system

II.1.3) Type of contract

Supplies

II.1.4) Short description

BCU is issuing this Prior Information Notice (PIN) as a Request for Information (RFI) serving as pre-market engagement to understand capabilities in the market for Access Control systems. This is not a selection process or process that will result in an award. Information obtained as part of this exercise may inform requirements of a potential future procurement exercise.

Process: BCU is utilising an electronic tendering / sourcing portal (Delta – link at the end of the notice) to manage this RFI and as such interested individuals and organisations will need to register (for free) on the portal to access (for free) the RFI documentation and return completed RFI documentation. The RFI documentation will be accessible from 26th April 2023 and completed RFI responses must be returned by 12:00 noon on 26th May 2023.

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.3) Place of performance

NUTS codes

- UKG31 - Birmingham

Main site or place of performance

Birmingham

II.2.4) Description of the procurement

BCU is issuing this Prior Information Notice (PIN) as a Request for Information (RFI) serving as pre-market engagement to understand capabilities in the market for Access Control systems. This is not a selection process or process that will result in an award. Information obtained as part of this exercise may inform requirements of a potential future procurement exercise.

Project background: the organisation has a requirement to implement a new access control system across the current estate. There is an appetite to implement a resilient system that can be further developed as opportunities arise as part of BCU's technology developments.

Based on information from the market in response to this RFI, options that BCU will later consider are: 1) a partial replacement of the system where the software and minimal hardware changes take place or 2) a full system replacement, this would involve changing all the hardware related to the access control system and implementing a new system. This RFI will inform the requirements of a potential future procurement exercise, ensuring the University take the best course of action for an Access Control System, to protect users of the facility and physical assets of the University, whilst enabling free movement to all approved users, in line with Security risk assessments, legislations and occupiers' liability.

Process: BCU is utilising an electronic tendering / sourcing portal (Delta – link at the end of the notice) to manage this RFI and as such interested individuals and organisations will need to register (for free) on the portal to access (for free) the RFI documentation and return completed RFI documentation.

The RFI documentation will be accessible from 26th April 2023 and completed RFI responses must be returned by 12:00 noon on 26th May 2023.

II.3) Estimated date of publication of contract notice

26 April 2023

Section IV. Procedure

IV.1) Description

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: No

Section VI. Complementary information

VI.3) Additional information
