II.1.4) Short description

DESNZ is seeking a provider to work as a partner (the 'Client Partner') to support in the design of the EEV scheme and provide resource support during various stages of scheme development. Additional support in future development phases of the scheme may be required and will be determined during the course of the contract.

The Client Partner will be expected to provide all the necessary resource and capability, and have sufficient capacity to manage the work required including, but not limited, to the following key areas:

- A mature intelligent client capability;
- Provision of and identification of key sources of intelligence in the supply market;
- Resources to provide policy and market engagement support;
- Relevant programme design and project management expertise; and
- Experience of working in concurrent and iterative design workstreams.

The initial phase of design work is due to start as soon as the contract is let, which is anticipated to be around June 2024. It will involve the Client Partner supporting a small multidisciplinary team within the Authority, comprising policy, commercial, analytical, digital and project delivery professionals. The Client Partner will help design the Target Operating Model (TOM) and supporting business processes, in line with the policy intent and eligibility criteria of the scheme, meeting current prevailing government standards and applicable regulations. This requirement is not exhaustive and may include additional

work packages as the design of the scheme matures.

This notice is to alert bidders to a call for competition for the DESNZ' Energy Efficiency Voucher Scheme Design Consultancy Call off.
