Weighting description

A price-per-quality-point methodology will be used.

The quality threshold will be split into 8 questions and evaluated individually. If the minimum overall quality threshold score of 60% is met then then commercial submission will be divided by the quality score to create the price per quality score.

Commercial submission / Moderated Final Quality Score = PQP Score.

PQP scores will be rounded to two decimal places and the lowest score on each Lot will

be awarded a contract
