I.4) Type of the contracting authority

Other type

Housing Association/Registered Provider

I.5) Main activity

Housing and community amenities

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

A2Dominion Group Commercial Contractor Framework Agreement 2021

Reference number

DN497568 - 2020/S 177-428539

II.1.2) Main CPV code

- 45000000 - Construction work

II.1.3) Type of contract

Works

II.1.4) Short description

A2Dominion Housing Group Limited and its subsidiaries invited expressions of interest from suitably experienced and qualified Contractors experienced in design and construction to enter into a long term (4 year) Framework Agreement to provide Works. Works commissioned by the Contracting Authority are predominantly but not exclusively 'new build' in nature and may involve, either wholly or partly, refurbishment or rehabilitation and/or repair. Works will usually involve the design and construction of residential properties, often mixed tenure and may also include full or partial design and/or construction of commercial premises. Works may occasionally involve the full or partial design and/or construction of other non-residential types of property, for example schools, highways, foot/road bridges and substations. As was set out in section VI.3, the Framework Agreement will also be available to other Access Bodies.

Important: Please be aware that it is A2Dominion Housing Group Limited's intention to introduce BIM Level 2 on Call-Off Contracts during the term of the Framework Agreement. Please refer to the A2Dominion's BIM Statement provided within the procurement documents for important information pertaining to A2Dominion's current progress in developing BIM capabilities, intentions with regards to the use of BIM and how the Mini-Tendering of Call-Off Contracts is likely to be affected during the Framework Agreement term.

II.1.6) Information about lots

This contract is divided into lots: Yes

II.1.7) Total value of the procurement (excluding VAT)

Value excluding VAT: £900,000,000

II.2) Description

II.2.1) Title

London/Home Counties region – Contracts up to £10,000,000

Lot No

LN1

II.2.2) Additional CPV code(s)

- 45000000 - Construction work

II.2.3) Place of performance

NUTS codes

- UKH23 - Hertfordshire

The contractor is an SME

No

V.2.4) Information on value of contract/lot (excluding VAT)

Total value of the contract/lot: £45,000,000

Section VI. Complementary information

VI.3) Additional information

Works commissioned by the Contracting Authority (A2Dominion) are predominantly but not exclusively 'new build' in nature and may involve, either wholly or partly, refurbishment or rehabilitation and/or repair. Works will usually involve the design and construction of residential properties, often mixed tenure and may also include full or partial design and/or construction of commercial premises. Works may occasionally involve the full or partial design and/or construction of other non-residential types of property, for example schools, highways, foot/road bridges and substations.

Works will take place in England, with particular focus in London, Berkshire, Hampshire, Surrey, East Sussex, Oxfordshire and Bristol. Sites may be procured within English counties which are outside of these core areas and A2Dominion and any access body wishing to use this Framework Agreement may do so at their discretion. However, to the extent that works are procured within a particular region/lot value, the Framework Panel Members within that corresponding lot will be considered for participation in any call-off process.

The Authority (or any access body) reserves the right at its sole discretion to invite Framework Panel Members from an additional Lot or Lots, to participate in the mini-tender competition, where it is considered that there is, or is likely to be, insufficient competition from the Framework Panel Members in any given Lot.

Works will vary widely in size and scope from small greenfield/brownfield 'infill' sites to very large urban regeneration/greenfield development projects. Works may involve buildings/structures with Listed status and/or be located in areas of special environmental status, for example.

Locations of sites may vary from high density built-up urban centres/suburbs to sparsely populated rural areas. Densities will vary from low to very high. Storey heights may vary widely from 2-3 storeys to multi-storey towers. Sustainable/renewable technologies of any kind may be involved on any project along with any forms of construction, from traditional methods to modern methods of construction.

Build contracts awarded under the Framework Agreement are likely to be (but not exclusively) governed by the JCT 2016 (Design & Build) form of contract incorporating amendments, as may be amended and/or updated from time to time. Other forms of JCT contract may be used (for example, Minor Works and Intermediate, etc), or alternatively other forms of contract, for example the NEC3 suite of contracts and Partnering forms (such as PPC2000), again incorporating amendments. Bespoke building contracts and/or Joint Venture arrangements may also be used.

Tenders submitted in relation to this procurement will be in accordance with the JCT 2016 (Design & Build) form of contract incorporating amendments.

The Contracting Authority, Contracting Authority's Representative and any consultants acting for or on behalf of the Contracting Authority in connection with the Framework selection process, accept no liability for any costs incurred by any Supplier or related third parties in the preparation and submission of their PQQ/ITT documentation.

Suppliers also accept that the Contracting Authority, expressly in accordance with the Regulations governing this process, reserves the right to change the basis and/or procedures for selecting Framework Contractors, including terminating the process outright, and any ensuing Contract 'call offs' without prior notice and without liability to Suppliers for any costs or expenses incurred as a result of participating in this selection process.

Under the Framework Agreement, A2Dominion, its subsidiaries, organisations within or associated with the A2Dominion and any Access Body (which may include any Public body, including central government departments, their agencies and non-departmental bodies, local authorities, National Health Service bodies, community land trusts, the Greater London Authority, fire authorities, transport authorities, education establishments, police authorities, registered providers/housing associations/charitable bodies and the City of London Corporation) have the option to enter into call off contracts with individual framework contractors as and when works are required.

Suppliers should note that, under the Framework Agreement, A2Dominion, its subsidiaries, organisations within or associated with A2Dominion Housing Group Limited and Access Bodies shall not be under any obligation to "call off" contracts with Framework Contractors and reserves the right to award a Contract to any main Contractor or trade Contractor outside of the Framework Agreement.

The Framework Agreement will be in place for four (4) years. However, contracts called off under the Framework Agreement may, where appropriate, continue beyond the four (4) year term of the Framework Agreement.

PLEASE NOTE: Please be aware that it is A2Dominion Housing Group Limited's intention to introduce BIM Level 2 on Call-Off Contracts during the term of the Framework Agreement. Please refer to the A2Dominion's BIM Statement provided within the procurement documents for important information pertaining to A2Dominion's current progress in developing BIM capabilities, intentions with regards to the use of BIM and how the Mini-Tendering of Call-Off Contracts is likely to be affected during the Framework Agreement term.

PLEASE NOTE that in order to obtain the procurement documents, you must follow the URL provided in this notice, where you will be required to complete a few details before

being provided unrestricted and free access to the procurement documents. The details you provide will be recorded by the authority and will be used for the purposes of sending notifications to all Suppliers during the procurement process. Therefore please ensure the details you provide are correct.
