Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Fire Alarm System Maintenance and Repair

Reference number

UY PROC 991

II.1.2) Main CPV code

- 50000000 - Repair and maintenance services

II.1.3) Type of contract

Services

II.1.4) Short description

The University of York ("the University") is seeking to appoint a service provider ("the Contractor") capable of servicing, maintaining and repairing its fire alarm system under a fully comprehensive contract. The successful Contractor shall be a Honeywell Gent channel partner (<https://process.honeywell.com/us/en/support/find-a-channel-partner>) or equivalent.

II.1.5) Estimated total value

Value excluding VAT: £1,800,000

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.2) Additional CPV code(s)

- 31625100 - Fire-detection systems
- 31625200 - Fire-alarm systems
- 50000000 - Repair and maintenance services

II.2.3) Place of performance

NUTS codes

- UKE21 - York

Main site or place of performance

University of York - York, Heslington and City Centre Campus sites.

II.2.4) Description of the procurement

The University of York ("the University") is pleased to invite tenders for The Provision of Fire Alarm Maintenance and Repair services in accordance with this notice and the published Invitation to Tender (ITT) document. The University is looking to appoint a single service provider ("the Contractor") to carry out Fire Alarm Service and Maintenance services on the basis of a fully comprehensive contract.

This contract is to provide Planned Preventative Maintenance (PPM) and servicing together with emergency call out cover for the University's Honeywell (Gent) fire detection and fire alarm systems on and off the York campuses, therefore the the successful Contractor shall be a Honeywell (Gent) channel partner, or equivalent. The Contractor will also have to suitably resource all planned works/projects to ensure that the planned works delivery will have no detrimental effect on the maintenance/service side of the contract i.e. the successful Contractor will commission all changes to the networks, which can range from a single device to a new domain node panel, fibre optic ring, and +12 detection panels. The University wishes to maintain full control of the network by utilising a single Contractor for all changes. This arrangement will not preclude other Gent Integrators (or equivalent) from supplying and installing extensions/new systems onto the networks, however all commissioning shall be carried out by the Contractor.

The Contractor shall carry out inspection, testing and servicing as recommended by BS 5839 and all amendments.

The majority of the University of York buildings have Honeywell (Gent) fire detection and alarm systems. The University is therefore seeking tenders only from Contractors who are approved Elite Technology Centres (or can demonstrate equivalent experience and skill).

Bidders should note that in addition to Honeywell (Gent) systems the University has some JSB, Advanced, Ziton, ADT, Premier, Emergi-lite and Menvier systems and the successful Contractor will be required to service and maintain these systems as well.

Full details of the University's requirements can be found within the invitation to tender and associated documents available to download from the In-Tend tender portal.

II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6) Estimated value

Value excluding VAT: £1,800,000

II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

Duration in months

72

This contract is subject to renewal

Yes

Description of renewals

The initial contract shall run for a period of two years, with options to extend the contract for a further two periods of two years. The total contract term including the extension periods (if enacted) shall be six years.

II.2.10) Information about variants

Variants will be accepted: No

II.2.11) Information about options

Options: Yes

Description of options

Yes, there shall be the option to extend the contract with mutual consent for two periods of up to two years following the initial two year contract term, resulting in a potential six year contract term.

II.2.14) Additional information

Tender documents can be accessed via the In-Tend portal at: <https://in-tendhost.co.uk/york.aspx/Home>

Section III. Legal, economic, financial and technical information
