II.1.4) Short description

SWIMMR is a four-year programme under UKRI SPF Wave 2 to develop and deploy new instruments and models to support the UK space weather community and national capabilities in MOSWOC. It directly addresses priorities identified by BEIS, MoD and DfT. It is aimed at improving forecasting predictions and establishing a legacy of enhanced operational capabilities.

The purpose of this particular procurement, which is just one part of SWIMMR, is to define the work required from a Supplier to provide Radiation Monitoring units for use in Aircraft and Balloons and associated operations support activities.

The scope is limited to the 3 main parts: Development State of Work, Operations Support and Technical Specification.

UKRI, the Contracting Authority, is looking to procure the requirements as laid out in the tender documentation held in the stated e-Sourcing portal.
