Scope

Description

This Market Test is being conducted to assess supplier interest and capability in providing Station End systems/equipment for Warwickshire Fire and Rescue Service. The objective is to explore available solutions, gauge market capacity, indicative costs, and inform a potential future procurement process.

The FRS need is to provide Station End turnout and alerting capability to stations and crews to enhance and support the work of operational crews and officers, and to consider innovative ideas to improve/replace the current systems/processes.

Suppliers are invited to respond, indicating their ability to provide all or some of the specified Lots.

The supply/support/maintenance of Station End systems/equipment is for 17 WFRS sites with a mix of crew types covering Wholetime, Day-crewed and On-call, including 3 resilience locations.

The replacement system/equipment must:

Provide reliable and secure communication with the Fire Control CAD system.

Support existing and future mobilisation requirements.

Ensure compatibility with existing infrastructure.

Improve resilience, maintainability, and user experience.

GD92 compliant.
